

Study Abroad: Scholarships & Fellowships

The following list is a compilation of various scholarships and grants intended for undergraduates studying abroad during the academic year.* For full details about each funding opportunity, including complete contact and deadline information, please consult the *Scholarships and Fellowships* binder located in the Office of International Programs Resource Library (Rhode Island Hall, Room 106).

This publication represents the collected fellowship and scholarship information that the OIP has received over numerous years. It is by no means an exhaustive list and should therefore be used in conjunction with such publications as *Financial Resources for Studying Abroad*, available in the OIP Resource Library. To further aid in your search for funding opportunities, online resources are included at the end of this document.

*Note: This list does not include funding opportunities for post-graduate or summer study. For a more detailed listing of these opportunities, please see the *Post-Graduate and Summer Study* binder in the OIP Resource Library. For a complete listing of fellowships, obtain a copy of the *Brown University Fellowship Guide* from Room 213, University Hall, x3-2538.
