Bio 45 - 2002 - Discussion Section Scheduling and Course Admission

The course enrollment limit is 60. This year we will not be able to go beyond that.

To get into the course [or stay in if you have permission], and to be assigned a section, you must hand in this form by the end of class today (September 4).

Please note the following:

1. **Transfer** or **returning** students - provide the information requested below and I will add you to the wait list.
2. **Freshmen** are advised to consider if they are really prepared for the course. It is aimed at soph/junior level.
3. Read the course prospectus and journal exercise handout carefully - there is a great deal of required, out of class work for the course. The expectation is that you will put **9-12 hours a week** into the course.
4. If you plan to take Bio 140 (Behavioral Ecology Seminar). Bio 45 is a pre-requisite. Bio 140 is limited to graduate students, seniors and juniors and to 20 students.

Filling out the schedule below is the only way to stay in the course or get into the course if you are on a waiting list. You'll get a chance to change sections on a one-for-one basis Monday.

I will pass around a class list on Friday and Monday. If you do not initial your name on both days, I will assume you have dropped and will replace you.

1. **X out** the times you **cannot** attend a section **on the form below** -- we need this information in case we have to re-schedule sections.

2. List your preferences for section times. We will try to assign you to your 1st or 2nd choice. There will be 6 sections of not more than 10 students.

	MON	TUES	WED	THURS	FRI	
8-8:50	A		A		A	SECTIONS - 1 HR AND 20 MIN
9-9:50	B	H	B	H	B	SECTION PREFERENCE (List by section number)
10-10:50	C		C		C	1st. _____
