

- workshop on the interface between -

NANOSCIENCE & NEUROSCIENCE

September 28

Barus + Holley 9am – 2:30pm

Room 190

AGENDA

8:30	Continental Breakfast	
9–9:10	Welcome	
9:10–9:25	Arto Nurmikko	Focus on Tools
9:25–9:40	Shouheng Sun	
9:40–9:55	Ed Walsh , MBL	
9:55–10:00	Christoph Rose-Petruck	Applications
10:00–10:15	Peter Smith / Amit Basu	
10:15–10:30	Mark Zervas	
10:30–11:00	Gunter Oberdorster, University of Rochester Medical School	

---- 15 min break ----

11:15–11:30	Diane Lipscombe	Neuro-tox
11:30–11:40	Jeff Morgan	Applications II
11:40–11:55	Diane Hoffman-Kim	

12:00-1 lunch (B&H lobby)

1-2:30 Speaker panel and facilitated discussion

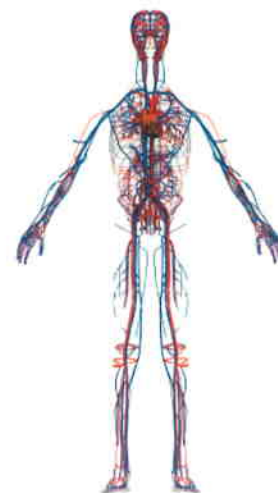

Panel questions

How can nanoscience address major questions in neuroscience?

What are immediate research needs in the new field
of nano-neurotoxicology?

What are the best opportunities for Brown at the nano-neuro interface?

How can IMNI and BIBS help us take advantage of these opportunities?

Focus on
Tools

Applications

Neuro-tox

Applications II

sponsored by:

Institute for Molecular
and Nanoscale Innovation
