ISIS Meeting Agenda. SALALM LII Congress. Albuquerque, New Mexico. April 27 – May 1, 2007

 - Send a letter to the Biblioteca Nacional de España congratulating them for the recent digital project of historical periodicals and newspapers entitled "Hemeroteca Digital." This project consists of 143 titles which comprise 500.000 pages representing a wide variety of Spanish press of all types: political, satirical, technical, literary, sports, religious, etc., ranging from 1772 to 1933. I suggest that our letter includes some words to "encourage" of Spanish colleagues to keep up the good work. They may want to know how we are using this resource and why it's important to expand its content. I got this idea from Miguel Valladares last e-mail.
 - Attend the Lisbon Book Fair in 2008 and organize a visit to the Biblioteca Nacional in Lisbon to meet with some of their librarians, particularly those in charge of digital projects and special collections. The Feira do Livro de Lisboa will be held May 24th-June 10, 2007. I believe that they usually organize it during the last week of May and the first week of June (similar to the one in Madrid) so we can start planning for 2008 or 2009.
