

FBC - B3/2

11-6-2006

C. PINO N,

We began and completed the second lot of B3 today. The previous lot was the removal of the sod, this lot was around 10 cm on the west side and 2 cm on the east side. Lot 2 brought the entire unit down to 20 cm from the ground on the Southeast corner. We narrowed this lot from the original unit size to 80 cm x 80 cm in the Southeast corner.

FBC - B3/3

11-11-2006

M. Amaral, C. Racca (and Maritza congregation member)

began lot 3 at 20 cm and completed it at 30 cm from SE datum point. Soil is very moist, a medium brown color which becomes a light, dull brown when dry. Finds include glass, ceramics, a couple of pieces of metal. Few roots.

started lot 3 at 30 cm there was some soil discoloration and orange patches started to appear.

Started lot 4 at 40 cm there were some darker areas and also orange patches they turned into a more mocha like color. We found charcoal, brick and some glass. Some rocks were exposed in the NE, SE corners.

Started lot 5 at 50 cm there were some medium brown spots, although areas of burning. We found some charcoal, brick and ceramics.

Lot 6 to 60 cm will be continued at a later
date

perimeter

N side 86.5 cm

S side 84 cm

E side 147.5 cm

W side 146.5 cm
