Pyramid Text 600 and allusions to the Memphite Theology

- Atum Kheper, you have come to be high on the hill, you have arisen on the Benben stone in the mansion of the Benben in Heliopolis, you spat out Shu, you expectorated Tefnut, and you put your two arms around them as the arms of a *ka* symbol, so that your *ka* might be in them. O Atum, place your arms around the king, around this edifice, around this pyramid as the arms of a *ka* so that the King's *ka* may be in it, firm forever and ever. O Atum, place your protection over this king, over this pyramid of his, over this edifice of the king, so that you may guard against anything happening evilly against him forever and ever, just as your protection was placed over Shu and Tefnut.
- O great Ennead which is in Heliopolis – Atum, Shu, Tefnut, Geb, Nut, Osiris, Isis, Seth, Nephthys – children of Atum, extend his heart (good-will) to his child (the king) in your name of Nine Bows. Let his back be turned from you towards Atum, so that he may protect this king, so that he may protect this pyramid of the king, so that he may protect this edifice of his from all the gods [and] from the dead, and so that he may guard against anything happening evilly against him forever and ever.
- Atum (the complete one) ejaculating out of himself Shu and Tefnut (air and moisture). They give birth to Geb and Nut. Next generation, and the conflict between Horus and Seth.
