The site of Akhetaten/Amarna

Boundary stelae at Amarna; that on the right is from Year 6, the second round of stela erection

From the Year 5 boundary stelae:

On this day, when One was in Akhet-Aten, his Person appeared on the great chariot of electrum – just like Aten, when he rises in his horizon and fills the land with the love and the pleasantness of the Aten. He set off on a good road toward Akhet-Aten, his place of the primeval event...

A great oblation was presented to the Father, Hor-Aten...

After this One performed the rites of the Aten, who was pleased with what was done for him...

His Person stood in the presence of his father, Hor-Aten, as Aten's rays were upon him...

Then his Person said "Bring me the king's companions and the great ones of the palace, the supervisors of the guard, the overseers of works projects, the officials and all the court in its entirety." So they were led in to him at once, and they lay on their bellies in his Person's presence, kissing the ground before the good god. Then said his Person to them "Behold Aten! The Aten wishes to have something made for him as a monument with an eternal and everlasting name. Now it is the Aten, my father, who advises me concerning it, namely Akhet-Aten. No official had ever advised me concerning it, nor had any people in the entire land ever advised me concerning it, to tell me a plan for making Akhet-Aten in this distant place.

... Then said the companions as they replied to the good god...

“May his lordship govern from Akhet-Aten. May you conduct every land to him. May you tax the towns and islands for him. Every city down to every [...], its entirety belongs to Aten, acting in accordance with what he himself ordains. All flat lands, all hill countries and the islands of the sea are bearing their tribute, their products on their backs, to the maker of their life, at the seeing of whose rays one lives...

“I shall make Akhet-Aten for the Aten, my father, in this place...

At Akhet-Aten in this place I shall make the House of Aten (the whole city) for the Aten, my father.

At Akhet-Aten in this place I shall make the Mansion of Aten (the great Aten temple) for the Aten, my father...

At Akhet-Aten in this place I shall make the sunshade (mortuary temple?) of the King's Chief Wife Neferneferuaten-Nefertiti for the Aten, my father...

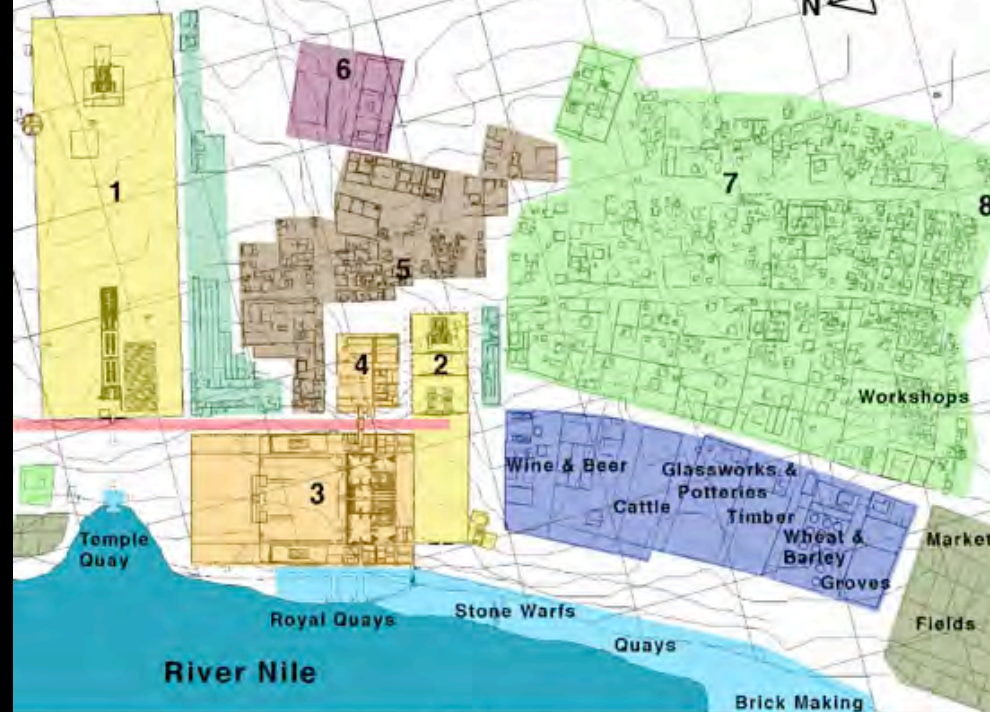

At Akhet-Aten in this place I shall make for myself the residence of Pharaoh, I.p.h. and I shall make the residence of the King's Chief Wife.

Let a tomb be made for me in the east mountain of Akhet-Aten, and let my burial be made in it...”
