(Ankara, Turkey)

**A City Gate, Palatial Complex  
and Sculpted Icons at Kerkenes,  
an Iron Age Capital  
in Central Turkey**

**Thursday, November 9<sup>th</sup>, 7:30 pm**  
Mencoff Hall (The Cabinet), 68 Waterman St.

*Kerkenes is an Iron Age Capital located in the highlands of central Turkey. The short life of this city makes it ideal for remote sensing, which has revealed an entire urban plan in remarkable detail. GIS studies are beginning to explain some aspects of the urban dynamics, while excavation is revealing monumental architecture embellished with unexpected iconography.*
