

***Celebration of Sakurai Prize Winners
May 5, 2010***

- 2:00 p.m. Gerry Guralnik (Brown U)
"The History of the Guralnik, Hagen and Kibble
development of the Theory of Spontaneous Symmetry
Breaking and Gauge Particles"***
- 2:30 p.m. Roman Jackiw (MIT):
"Gerry and the Problem of Mass; then and now"***
- 3:00 p.m. Sally Dawson Brookhaven Natl Lab):
"Searching for electroweak symmetry breaking"***
- 3:30 p.m. Break***
- 4:00 p.m. Marcus Spradlin (Brown U):
"The Harmony of Scattering Amplitudes: From Twistor
Space to the LHC"***
- 4:30 p.m. Jesse Thaler (MIT):
"Supersymmetry Breaks (Again): Gravitinos and Goldstini
at the LHC"***
- 5:00 p.m. Ulrich Heintz (Brown U):
"The elusive agent of electroweak symmetry breaking
from an experimentalists point of view"***
