

Heavy-ion collisions in the LHC era

François Arleo

Qui Nhơn (Vietnam), 16-20 July 2012

Heavy ion collisions in the LHC era

A conference on **high-energy heavy-ion collisions** will take place in Qui Nhơn on **16-20 July 2012**. Results from LHC 2011 data will be discussed as well as theoretical developments

Organizing committee: F. Arleo, C. Salgado, J. Trân Thanh Vân

Topics

- QCD at High Temperature and Density
- Pre-equilibrium and Initial State Physics
- Global and Collective Dynamics
- Jets
- Heavy Flavor and Quarkonia Production
- Electroweak Probes

International Committees

International Advisory Committee

- F. Antinori
- N. Armesto
- J.-P. Blaizot
- H. Caines
- D. d'Enterria
- S. Gupta
- T. Hatsuda
- S. Jeon
- L. McLerran
- Y. Schutz
- D. Srivastava
- P. Steinberg
- H. Stöcker
- E. Wang
- X.N. Wang
- U. Wiedemann
- N. Xu

International Program Committee

- F. Arleo
- Z. Conesa del Valle
- H. Ding
- E. Ferreira
- R. Granier de Cassagnac
- T. Hirano
- K. Itakura
- M. Itkis
- G. Milhano
- B. Mohanty
- L. Ruan
- C. Salgado
- I.-K. Yoo
