~~SECRET~~

NOTE FROM: JOHN POINDENTER
Subject: PRIVATE BLANK CHECK

You may go ahead and go, but I want several points made clear to them. There are not to be any parts delivered until all the hostages are free in accordance with the plan that you laid out for me before. None of this half shipment before any are released crap. It is either all or nothing. Also you may tell them that the President is getting very annoyed at their continual stalling. He will not agree to any more changes in the plan. Either they agree finally on the arrangements that have been discussed or we are going to permanently cut off all contact. If they really want to save their asses from the Soviets, they should get on board. I am beginning to suspect that doesn't have such authority.

cc: NSPBT --CPUA PAUL THOMPSON
