BROWN UNIVERSITY

Financial Statements

June 30, 2021 and 2020

(With Independent Auditors’ Report Thereon)
Independent Auditors’ Report

The President and Corporation
Brown University:

We have audited the accompanying financial statements of Brown University, which comprise the balance sheets as of June 30, 2021 and 2020, the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Brown University as of June 30, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.
Emphasis of Matter

As discussed in note 1(q) to the financial statements, in 2021, the University adopted Accounting Standards Update (ASU) 2016-02, Leases (Topic 842), as amended. Our opinion is not modified with respect to this matter.

See accompanying notes to financial statements.
(1) Summary of Significant Accounting Policies

(a) Organization

Brown University (the University or Corporation) is a private, not-for-profit, nonsectarian, co-educational institution of higher education with approximately 6,670 undergraduate students and 3,000 graduate and medical students. Established in 1764, Brown University offers educational programs for undergraduates in liberal arts and engineering, professional training for students pursuing a career in medicine, and graduate education and training in the arts and sciences, engineering and medicine.

(b) Basis of Presentation and Tax Status

The accompanying financial statements are presented on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP) and present balances and transactions according to the existence or absence of donor-imposed restrictions.

The John Nicholas Brown Center for the Study of American Civilization and certain entities established by the University’s investment office that holds certain investment funds, are all separate legal entities that are consolidated in the financial statements. Brown University and these consolidated entities are collectively referred to herein as the University. All significant inter-entity transactions and balances have been eliminated.

The University is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code, as amended, and is generally exempt from income taxes. The University assesses uncertain tax positions and determined that there are no such positions that have a material effect on the financial statements.

(c) Classification of Net Assets

Net assets, revenues, and gains and losses are classified based on the existence or absence of donor-imposed restrictions into two classes of net assets. Accordingly, net assets of the University are classified and reported as follows:

- **Without donor restrictions** – Net assets that are not subject to donor-imposed stipulations.
- **With donor restrictions** – Net assets subject to donor-imposed stipulations that are more specific than broad limits resulting from a not-for-profit’s nature, environment in which it operates and incorporating documents. Some donors impose restrictions that are temporary in nature for example, stipulating that resources be used only after a specific date, for particular programs or services, or to acquire buildings and equipment. Other donors impose restrictions that are perpetual in nature, for example, donor-restricted endowment funds stipulating that resources be maintained in perpetuity.
Revenues are reported as increases in net assets without donor restrictions unless their use is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulations or by law. The University is incorporated in and subject to the laws of Rhode Island, which contain the provisions outlined in the Uniform Prudent Management of Institutional Funds Act (UPMIFA). Under UPMIFA, the net assets of a donor-restricted endowment fund may be appropriated for expenditure by the Corporation of the University in accordance with the standard of prudence prescribed by UPMIFA.

(d) **Fair Value Measurements**

Investments, funds held in trust by others, and interest rate swaps are reported at fair value in the University’s financial statements. Fair value represents the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants as of the measurement date. The University uses a three-tiered hierarchy to categorize those assets and liabilities based on the valuation methodologies employed. The hierarchy is defined as follows:

- **Level 1** – Valuation based on quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities;
- **Level 2** – Valuations based on inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- **Level 3** – Valuation based on unobservable inputs used in situations in which little or no observable market data is available.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. The University utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. Transfers between categories occur when there is an event that changes the inputs used to measure the fair value of an asset or liability. Transfers between fair value categories are recognized at the end of the reporting period.

Investments measured at net asset value as a practical expedient to estimate fair value are not categorized in the fair value hierarchy.

(e) **Statements of Activities**

The statements of activities separately report changes in net assets from operating and nonoperating activities. Operating activities consist principally of revenues and expenses related to ongoing educational and research programs, including endowment return appropriated by the Corporation to support those programs. Nonoperating activities consist of net investment return, an offset for endowment return appropriated for operating activities, changes in fair values of interest rate swaps, change in pension plan and other long-term obligations, contributions for long-term purposes, net assets released from donor restrictions for property placed in service, and other activities not in direct support of annual operations.
Revenue from contracts with customers is recognized when control of the promised goods or services is transferred in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services (i.e., the transaction price). Revenues are derived from various sources, as follows:

- Revenue from student education, residence, and dining services is determined based on published rates and is billed and reflected net of reductions from institutional student aid, which may be funded by endowment funds or other institutional resources. Such revenue is recognized as the services are provided over the academic year, which generally aligns with the University’s fiscal year. Aid in excess of a student’s tuition and fees is reflected as a reduction of residence and dining charges. Disbursements made directly to students for living costs or other purposes are reported as an expense. Payments for student services are generally received prior to the commencement of each academic term and are reported as student deposits (contract liabilities) to the extent services will be rendered in the following fiscal year.

The composition of student tuition and fee revenue was as follows for the years ended June 30, 2021 and 2020:

<table>
<thead>
<tr>
<th>Description</th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate</td>
<td>$381,477</td>
<td>418,456</td>
</tr>
<tr>

<td>(216,863)</td>
</tr>
<tr>
<td>Net tuition and fees</td>
<td>$330,835</td>
<td>399,031</td>
</tr>
</tbody>
</table>

Sales and services of auxiliary enterprises revenues are recognized when goods or services are provided to students and customers. Auxiliary enterprises revenues consisted of the following for the years ended June 30, 2021 and 2020:

<table>
<thead>
<tr>
<th>Description</th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Residence, dining and health services</td>
<td>$54,826</td>
<td>68,502</td>
</tr>
<tr>
<td>Bookstore, rental and other auxiliary income</td>
<td>8,078</td>
<td>17,544</td>
</tr>
<tr>
<td>Total</td>
<td>$62,904</td>
<td>86,046</td>
</tr>
</tbody>
</table>
Contributions, including unconditional promises from donors reported as contributions receivable, are
recognized at fair value in the period received and are classified based upon the existence or absence
of donor-imposed restrictions. Expirations of donor-imposed restrictions are reported as net assets
released from restrictions. Contributions which impose donor restrictions that are met in the same fiscal
year they are received are reported as increases in net assets without donor restrictions. Bequest
intentions and conditional promises are not recorded in the University’s financial statements.

- Grants and contracts awarded by federal and other sponsors, which generally are considered
  nonexchange transactions restricted by sponsors for certain purposes, are recognized as
  revenue when qualifying expenditures are incurred and conditions under the agreements are met.
The University has elected the simultaneous release policy available under ASU 2018-08, which
allows a not-for-profit organization to recognize a restricted contribution directly in net assets
without donor restrictions if the restriction is met in the same period that the revenue is recognized.
Total revenue from grants and contracts recognized in net assets without donor restrictions was
$236,053 and $209,263 for the years ended June 30, 2021 and 2020, respectively. Payments
received from sponsors in advance of conditions being met are reported as grant advances, which
totaled $38,510 and $27,089 as of June 30, 2021 and 2020, respectively. Conditional awards from
federal sponsors outstanding as of June 30, 2021 were $438,234.

- Dividends, interest and realized and unrealized gains (losses) on investments are reported
  as increases (decreases) in (1) net assets with donor restrictions if the terms of the contributions
  require them to be added to principal or if the terms of the related contributions impose restrictions
  on their availability or use; or (2) net assets without donor restrictions in all other cases. Investment
  return attributable to donor-restricted endowment funds is reported as net assets with donor
  restrictions to the extent not appropriated and spent.

Expenses are reported as decreases in net assets without donor restrictions.

(f) Cash Equivalents
For purposes of the statements of cash flows, cash equivalents, except for those held by investment
managers and those held as collateral for debt or interest rate swaps, consist of money market funds
and investments with original maturities of three months or less and are carried at cost, which
approximates fair value.

(g) Accounts and Notes Receivable and Other Assets
Accounts receivable and other assets include amounts due from students, reimbursements due from
sponsors of externally funded research, accrued income on investments, inventory and prepaid
expenses. Notes and accounts receivable are presented net of an allowance for uncollectible amounts.

(h) Land, Buildings and Equipment
Land, buildings and equipment are stated at cost of acquisition or construction (including capitalized
interest) or, to the extent received as a gift, at estimated fair value at the time of receipt, and are
presented net of accumulated depreciation. All other expenditures for maintenance and repairs are
charged to operating activities as incurred.
Depreciation is calculated using the straight-line method with estimated useful lives of 30-to-40 years for buildings, 20-to-30 years for building improvements, and 3-to-15 years for equipment, depending upon asset class. Depreciation on buildings that support research efforts are componentized and depreciated over useful lives ranging from 15–40 years.

(i) **Fund Held in Trust by Others**

Funds held in trust by others represent funds that are held and administered by outside trustees, including perpetual trusts established by donors of $40,821 and $32,712 at June 30, 2021 and 2020, respectively. The University receives all or a specified portion of the return on the underlying assets of most of the trusts, which is primarily restricted for scholarships. Most of these trust interests are classified in Level 3 in the fair value hierarchy. Other trustee funds of $9,293 and $20,727 at June 30, 2021 and 2020, respectively, represent debt proceeds to be utilized for construction projects or otherwise required to be held as collateral or in reserve in accordance with debt or interest rate swap agreements. These are classified in Level 1 in the fair value hierarchy because the underlying securities held by the trustee are based on quoted market prices.

(j) **Federal Student Loan Advances**

The University holds certain amounts advanced by the U.S. government under the Federal Perkins Loan Program and the Health Professions Student Loan Program (the Programs). Under federal law, the authority for schools to make new loans under the Programs ended on September 30, 2017, and financial distributions to student were permitted through June 30, 2018.

(k) **Collections**

The University’s collections include works of art, historical treasures, and artifacts that are maintained in the University’s libraries and museums. These collections are protected and preserved for education and research purposes. The collections are not recognized as assets in the financial statements of the University.

(l) **Derivatives**

The University uses derivatives for both debt and investment-related purposes. Interest-rate swaps, as described in note 7 (c), are initially used to manage interest-rate risk by fixing the rate on associated variable-rate debt issuances. In addition, certain of the University’s investment strategies utilize various derivative financial instruments for a number of investment purposes, including hedging or altering exposure to certain asset classes and cost-effectively adding exposures to portions of the portfolio. Positions are expected to create gains or losses which, when combined with the applicable portion of the total investment portfolio, provide an expected result. Among the derivative instruments that may be entered from time to time include total return swaps to manage exposures in equity markets, foreign currency forward contracts to manage currency exposures in the portfolio. The University has established policies and procedures to monitor and manage risks related to these instruments. In connection with its investment derivative activities, the University generally maintains master netting agreements and collateral agreements with its counterparties. The agreements provide the University the right, in the event of default by the counterparty, to net a counterparty’s rights and obligations under the agreement and to liquidate and offset collateral against any net amount owed by the counterparty.
(m) Liabilities Associated with Investments

The University may, from time to time, incur liabilities associated with its investments portfolio as a result of securities sold short or other transactions. In order to terminate a short position, the University must acquire and deliver to the lender a security identical to the one it borrowed and sold short, and a realized gain or loss is recognized for the difference between the short sale proceeds and the cost of the identical security acquired. Liabilities reported on the balance sheets at June 30, 2021 and 2020 include $35,376 and $0, respectively, representing the fair value of identical securities that must be acquired to settle obligations to the lender. The liabilities would be classified as Level 1 in the fair value hierarchy given that they are measured based on quoted market prices. In addition, liabilities associated with investments include the fair value swaps and futures of $2,937 and $6,344 entered into in fiscal 2021 and 2020, respectively.

(n) Other Long-Term Obligations

Other long-term obligations consisted of the following for the years ended June 30, 2021 and 2020:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>

<td><strong>$91,768</strong></td>
<td><strong>111,859</strong></td>
</tr>
</tbody>
</table>

(o) Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

(p) Risks and Uncertainties

In March 2020, the World Health Organization declared the novel coronavirus (COVID-19) a pandemic. Although it is not possible to determine the pandemic’s ultimate length, severity, or impacts on the economy or the University’s finances, the University could experience adverse effects posed by the risks, or our stakeholders’ perceptions of the risks, related to COVID-19.

The University announced its Plan for a Healthy and Safe 2020-21 in July 2020, providing the roadmap for the steps Brown is taking to mitigate the impact of the global COVID-19 pandemic during the phased resumption of on-campus instruction and operations. The Plan for a Healthy and Safe 2020-21 included a one-time transition to three semesters and an extensive COVID-19 testing program. The full extent of the continual impact of COVID-19 on the University will depend on various future developments, particularly the duration and depth of the pandemic, which may be influenced by new COVID-19 variants.
(q) Recent Issued Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), as amended, that requires, among other things, a lessee to recognize a right-of-use asset representing an entity’s right to use the underlying asset for the lease term and a liability for lease payments on the balance sheet, regardless of classification of a lease as an operating or finance lease. As permitted by the ASU, for leases with a term of twelve months or less as a lessee, the University has elected not to recognize lease assets and liabilities and account for the lease similar to existing guidance for operating leases. The University adopted ASU 2016-02 in fiscal year 2021 using the modified retrospective approach. Right-of-use assets and related lease obligations of $105,502 were recognized as of July 1, 2020 and are included in the balance sheet. The guidance did not materially impact the University’s results of operations.

(r) Leasing

The University determines if an arrangement is a lease at inception. The University has leases for which it is a lessor. Operating leases are included in right of use assets, and the related lease obligations in the balance sheet.

Lease right-of-use assets represent the University’s right to use an underlying asset for the lease term. Lease obligations represent the University’s liability to make lease payments arising from the lease. Operating lease right-of-use assets and related obligations are recognized at commencement date based on the present value of lease payments over the lease term discounted using an appropriate incremental borrowing rate. The incremental borrowing rate is based on the information available at commencement date in determining the present value of lease payments. The value of an option to extend or terminate a lease is reflected to the extent it is reasonably certain management will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

Rental income arising from operating leases as a lessor is included in operating revenue in other sources in the statement of activities. The cash paid for amounts included in the measurement of these liabilities, under ASC 842, for operating leases for the year ended June 30, 2021 was $8,845.

<td>100,000</td>
<td>100,000</td>
</tr>
<tr>
<td>Total financial assets and liquidity resources available within one year</td>
<td>$1,661,880</td>
<td>1,214,229</td>
</tr>
</tbody>
</table>

The University manages its financial assets to be available as its operating expenditures, liabilities and other obligations come due. In addition, the University invests cash in excess of daily requirement in short-term investments or fixed income securities. To supplement working capital, the University has a $100,000 line of credit and a $125,000 taxable commercial paper program at June 30, 2021.

Additionally, the University has Corporation-designated endowments of $960,328 and $635,594 as of June 30, 2021 and 2020, respectively. Although the University does not intend to spend from its Corporation-designated endowment funds, other than amounts appropriated for general expenditure, as part of its annual budget approval and appropriation process, amounts from its Corporation-designated endowment funds could be made available if necessary. However, both the Corporation-designated funds and donor-restricted endowment funds contain investments with liquidity constraints, of which $2,468,312 can be liquidated on a daily to quarterly basis at June 30, 2021 (refer to note 4 for disclosures about investments).
(3) Contributions Receivable

The University’s contributions receivable are recognized net of discounts at rates commensurate with the risks involved and after allowances for uncollectible accounts are reported at net realizable value, which approximates fair value. Contributions receivable were as follows at June 30:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contributions expected to be received in:</td>
<td></td>
<td></td>

<td>(78,125)</td>
</tr>
<tr>
<td>Contributions receivable, net</td>
<td>$306,557</td>
<td>279,082</td>
</tr>
</tbody>
</table>

At June 30, 2021, the University had conditional promises to give of $247,938. These conditional promises to give are not recognized as assets or revenue in the financial statements.

(4) Investments

Investment Strategy

In addition to traditional stocks and fixed-income securities, the University may also hold shares or units in institutional funds as well as in alternative investment funds involving absolute return, private equity and real asset strategies. Absolute return strategies involve funds whose managers have the authority to invest in various asset classes at their discretion, including the ability to invest long and short. Funds with absolute return strategies generally hold securities or other financial instruments for which a ready market exists and may include stocks, bonds, put or call options, swaps, currency hedges and other instruments, and are valued accordingly. Private equity funds employ buyout and venture capital strategies and may focus on investments in turn-around situations. Real asset funds generally hold interests in public real estate investment trusts (REITs), commercial properties, commodities, or oil and gas, generally through commingled funds. Private equity and real asset strategies therefore often require the estimation of fair values by fund managers in the absence of readily determinable market values.

Investments also include assets related to donor annuities, pooled income funds, and charitable remainder trusts. Certain of these funds are held in trust by the University for one or more beneficiaries who are generally paid lifetime income, after which the principal is made available to the University in accordance with donor restrictions, if any. The assets are reported at fair value and related liabilities, which are reported as split-interest obligations, represent the present value of estimated future payments to beneficiaries.
BROWN UNIVERSITY
Notes to Financial Statements
June 30, 2021 and 2020
(Dollars in thousands)

Basis of Reporting
Investments are reported at estimated fair value. If an investment is held directly by the University and an active market where quoted prices exist, the market price of an identical security is used to report fair value. Fair values for shares in registered mutual funds are based on published share prices. The University’s interests in alternative investment funds are generally reported at the net asset value (NAV) reported by the fund managers and assessed as reasonable by the University, which is used as a practical expedient to estimate the fair value of the University’s interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. At June 30, 2021 and 2020, the University had no plans or intentions to sell investments at amounts different from NAV.

Because of the inherent uncertainties of valuation, these estimated fair values may differ significantly from values that would have been used had a ready market existed, and the differences could be material. Such valuations are determined by fund managers and generally consider variables such as operating results, comparable earnings multiples, projected cash flows, recent sales prices, and other pertinent information, and may reflect discounts for the illiquid nature of certain investments held.

The following tables summarize the University’s investments by strategy type as of June 30, 2021 and 2020:

Registered mutual funds and directly held equity securities are classified in Level 1 of the fair value hierarchy. Investments classified in Level 2 and 3 consist of directly held investments that have valuations based on inputs other than quoted prices.

Certain funds contain “rolling” lock-up provisions. Under such provisions, tranches of the investment are available for redemption once every two to five years, if the University makes a redemption request prior to the next available withdrawal date in accordance with the notification terms of the agreement. Private equity and real assets are held in funds that have initial terms of ten to twelve years with extensions of one to three years, and have an average remaining life of approximately four to seven years.
The following tables present activities for the years ended June 30, 2021 and 2020 for the University’s investments classified in Level 3:

Investments with daily liquidity generally do not require advance notice prior to withdrawal. Investments with monthly, quarterly, semi-annual, and annual redemption frequency typically require notice periods, ranging from 5 to 180 days, at June 30, 2021 and 2020.

(b) Commitments

Private equity and real asset investments are generally made through limited partnerships. Under the terms of these agreements, the University is obligated to remit additional funding periodically as capital or liquidity calls are exercised by the manager. These partnerships have a limited existence, generally ten years, and such agreements may provide for annual extensions for the purpose of disposing portfolio positions and returning capital to investors. However, depending on market conditions, the inability to execute the fund’s strategy, and other factors, a manager may extend the terms of a fund beyond its originally anticipated existence or may wind the fund down prematurely. As a result, the timing and amount of future capital or liquidity calls expected to be exercised in any particular future year is uncertain. The aggregate amount of unfunded commitments associated with private equity, real assets and private credit as of June 30, 2021 and 2020 was $1,019,846 and $905,251, respectively.
(c) Investment Derivatives

The University’s investment-related derivative positions, categorized by primary underlying risk, are as follows as of June 30, 2021 and 2020:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>

</tbody>
</table>

Instrument type included in liabilities associated with investments:

| Total return swaps        | $ 1,823         | 6,344           |
| Futures and options       | 1,114           | —               |
(5) **Endowment**

The University’s endowment consists of approximately 3,400 individual funds established for a variety of purposes, including both donor-restricted endowment funds and funds designated by the Corporation to function as endowments. Net assets associated with the endowment are classified and reported based upon the existence or absence of donor-imposed restrictions.

Endowment net assets consist of the following at June 30, 2021:

<table>
<thead>
<tr>
<th>Without donor restrictions</th>
<th>With donor restrictions</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

(a) Interpretation of Relevant Laws

In accordance with UPMIFA, the University considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the University and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the University
- The investment policies of the University

(b) Funds with Deficiencies

From time to time, the fair value of assets associated with an individual donor-restricted endowment fund may fall below the fund’s historic dollar value. Deficiencies of this nature are reported in net assets with donor restrictions. There were no donor-restricted endowment funds underwater at June 30, 2021 and 2020.

(c) Return Objectives and Risk Parameters

The University has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets, including both donor-restricted and designated funds. The long-term investment return objective is formulated to maintain purchasing power after accounting for both inflation and spending. The Corporation has set a long-term return goal at 5.5% above the higher education price index. Actual returns in any given year or period of years may vary from this amount.
(d) Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the University relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The University targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

(e) Spending Policy and How the Investment Objectives Relate to Spending Policy

The University invests its endowment funds and allocates the related return for expenditure in accordance with the total return concept. The endowment utilization is determined in accordance with the policy adopted by the Corporation. This policy fixes the spending range between 4.5% and 5.5% of the average fair value of applicable endowments over the prior twelve quarters, with the objective being to hold the spending rate to no more than a 5% average over time. Applicable endowments include Corporation-designated and donor-restricted endowment funds.

(6) Land, Buildings and Equipment

Land, buildings and equipment include the following at June 30:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land</td>
<td>$93,323</td>

(a) Tax Exempt Bonds

The University’s tax-exempt debt, primarily Facilities Revenue Bonds, is issued through RIHEBC, a state agency serving as a conduit issuer of tax exempt debt. The University is required under certain of its financing agreements with RIHEBC to appropriate funds from operating and other net assets for payment of principal and interest and for maintenance of the related properties. The Revenue Bonds currently outstanding were issued primarily to finance new and ongoing capital projects, student housing, academic, research and administrative buildings, and infrastructure.

In July 2019, the University issued through RIHEBC tax-exempt bonds with a total par value of $54,560 at an interest rate of 5.0%, maturing in 2030. The bonds were sold at a premium of $16,496, resulting in an effective yield of 1.73%. The proceeds were used to refinance $70,795 of Series 2009 tax-exempt bonds.
(b) Taxable Bonds and Other Debt

In September 2020, the University issued taxable bonds with a total par value of $365,000 at an interest rate of 2.92%, maturing in fiscal year 2051; to add to the Series 2020A taxable bonds issued in May 2020. The bonds were sold at a premium of $37,026, resulting in an effective yield of 2.44%. The proceeds will be used for general corporate purposes.

In May 2020, Series 2020A taxable bonds were issued in the amount of $300,000 at interest rates of 1.91% to 2.92%, maturing in 2051. The proceeds will be used for general purposes, capital projects, and may also be used to pay down existing debt.

The University has a $125,000 Taxable Commercial Paper Program that allows for the issuance of Standard Commercial Paper Notes, Series A. In July 2019, the Taxable Commercial Paper Program was amended to increase the maximum amount of taxable promissory notes from $50,000 to $125,000 and to terminate the Extendible Commercial Paper Notes, Series B. These unsecured, taxable promissory notes can be issued in various amounts with maturities no greater than 270 days. At June 30, 2021 and 2020, there were no outstanding notes.

Principal payments of bonds, notes and loans payable as of June 30, 2021 for each of the succeeding five fiscal years ending June 30 and thereafter are as follows:

<table>
<thead>
<tr>
<th>Fiscal year</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>2022</td>
<td>$167,760</td>
</tr>
<tr>
<td>2023</td>
<td>67,185</td>
</tr>
<tr>
<td>2024</td>
<td>7,105</td>
</tr>
<tr>
<td>2025</td>
<td>9,215</td>
</tr>
<tr>
<td>2026</td>
<td>9,645</td>
</tr>
<tr>
<td>Thereafter</td>
<td>1,110,230</td>
</tr>
<tr>
<td>Total</td>
<td>$1,371,140</td>
</tr>
</tbody>
</table>

At June 30, 2021, the University had a $100,000 committed line of credit. The line of credit matures in May 2024 and is available at a rate of one-month LIBOR plus 55 basis points. At June 30, 2020 the University had two $50,000 committed lines of credit. The first line of credit matured in July 2021 and was available at a rate of LIBOR floor rate of 1% plus 75 basis points. In May 2020, the University executed an $50,000 line of credit at a rate of one-month LIBOR floor rate of 1% plus 150 basis points, which matured in May 2021. As of June 30, 2021, and 2020, the full lines of credit in the amounts of $100,000 were available.

The University has two stand-by bond purchase agreements with financial institutions totaling approximately $125,000 in the event that the Series 2003B and Series 2005A bonds cannot be remarketed. The $85,500 agreement expired in November 2020 and was substituted with a comparable agreement, which matures in December 2023. The $39,517 agreement matures January 2023. There were no amounts outstanding at June 30, 2021 and 2020, under these agreements, nor has either agreement ever been called upon.
The University provided self-liquidity for its taxable commercial paper program at June 30, 2021 and 2020.

(c) **Interest Rate Swaps**

At June 30, 2021 and 2020, the University had two interest-rate swap agreements in place to effectively convert a portion of its variable-rate debt to fixed rates until maturity of the associated bonds. The notional amounts for the JPMorgan swap and the $85,500 Goldman Sachs swap match the par amounts of the bonds and amortize at the same rate as the associated debt.

As of June 30, the following interest-rate swap agreements were outstanding:

<table>
<thead>
<tr>
<th>Counterparty</th>
<th>Associated debt</th>
<th>Expiration date</th>
<th>June 30, 2021 remaining notional value</th>
<th>Swap fixed rate</th>
<th>Fair value of liability at June 30</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td>$39,080</td>
<td>3.732%</td>
<td>$(15,697)</td>
</tr>
<tr>
<td>JPMorgan</td>
<td>Series 2003B</td>
<td>9/1/2043</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Goldman Sachs</td>
<td>Series 2005A</td>
<td>5/1/2035</td>
<td>85,500</td>
<td>3.979%</td>
<td>(30,467)</td>
</tr>
<tr>
<td>Goldman Sachs</td>
<td>None</td>
<td>9/1/2032</td>
<td>12,033</td>
<td>3.891%</td>
<td>(2,191)</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>$(48,355)</td>
</tr>
</tbody>
</table>

The variable rate on the two Goldman Sachs swaps is based on the USD-BMA Municipal Swap Index. The variable rate on the JPMorgan swap is based on 67% of one-month LIBOR-BBA. The Goldman Sachs swaps require posting of collateral by either party at thresholds based on their respective credit ratings. Cash collateral must be posted by the University if the aggregate mark-to-market liability payable by the University exceeds $25,000. The JPMorgan swap stipulates that if the University meets a minimum credit rating there are no collateral posting requirements. At June 30, 2021, the collateral posting requirement was $7,658; however, $7,700 was on deposit as collateral to ensure continuing collateral coverage.

Interest rate volatility, remaining outstanding notional value and time to maturity will affect each swap’s fair value at subsequent reporting dates. To the extent the University holds a swap through its expiration date, the swap’s fair value will reach zero. Because the swap fair values are based predominantly on observable inputs corroborated by market data, they are classified in Level 2 in the GAAP fair value hierarchy.

(8) **Retirement Benefits**

The University participates in two contributory retirement plans. The expense to the University, representing its contributions to the accounts of faculty and staff, was $21,833 and $30,396 for the years ended June 30, 2021 and 2020, respectively.
The University also has a non-qualified deferred compensation plan under IRC 457(b) that is offered to a select group of employees. Assets are held by a custodian on behalf of the University and are restricted for payments to participants and beneficiaries. At June 30, 2021 and 2020, total assets held by the University were $40,924 and $31,026, respectively, and included in investments on the balance sheet. A corresponding liability is included in retirement obligations.

The Brown University Food Services and Plant Operations Employees’ Pension Plan is a qualified, noncontributory defined benefit plan which provides pensions for certain full-time weekly paid employees. The policy of the University is to fund pension costs in accordance with the Employee Retirement Income Security Act of 1974, as amended.

Information regarding the defined benefit pension plan for the years ended June 30 is as follows:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Change in projected benefit obligation:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Projected benefit obligation at beginning of year</td>
<td>$140,483</td>
<td>116,793</td>
</tr>

<td>Fair value of plan assets at end of year</td>
<td>109,467</td>
<td>85,613</td>
</tr>
<tr>
<td>Projected benefit obligation at end of year</td>
<td>(143,481)</td>
<td>(140,483)</td>
</tr>
<tr>
<td>Funded status included in retirement obligations</td>
<td>$34,014</td>
<td>$54,870</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Net periodic pension cost:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Service cost</td>
<td>$6,055</td>
<td>4,636</td>
</tr>
<tr>
<td>Interest cost</td>
<td>3,595</td>
<td>3,938</td>
</tr>
<tr>
<td>Expected return on assets</td>
<td>(3,999)</td>
<td>(4,943)</td>
</tr>
<tr>
<td>Amortization of unrecognized loss and prior service cost</td>
<td>2,646</td>
<td>1,324</td>
</tr>
<tr>
<td>Net periodic pension cost</td>
<td>$8,297</td>
<td>4,955</td>
</tr>
</tbody>
</table>

Net periodic pension cost was determined using the following assumptions for the years ended June 30:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Discount rate</td>
<td>2.56 %</td>
<td>3.41 %</td>
</tr>
<tr>
<td>Rate of compensation increase</td>
<td>3.00</td>
<td>3.00</td>
</tr>
<tr>
<td>Expected long-term rate of return</td>
<td>4.70</td>
<td>6.00</td>
</tr>
</tbody>
</table>

The expected rate of return on plan assets was derived based upon assumptions of inflation, real returns, anticipated value added by the investment manager and expected asset class allocations.

Net periodic pension cost is reflected in operating activities on the statements of activities. As of June 30, 2021 and 2020, items not yet recognized as components of net periodic pension cost are unrecognized prior service cost of $812 and $933, respectively, and a net unrecognized actuarial loss of $17,932 and $44,464, respectively. These changes affecting the funded status of the plan are included in other changes, net in nonoperating activities in the statements of activities.

The plan assets at June 30, 2021 and 2020 consist of variable annuity investments with various equity and fixed income focuses, which are classified as Level 1 in the GAAP fair value hierarchy.
The investment strategy for the Plan takes into account several factors consistent with the characteristics of an employee pension plan. As such, the strategy recognizes a long-term time horizon where a substantial allocation to equities is appropriate and will help to maximize returns; broad diversification in order to increase return and reduce risk; and investment in institutional retirement annuities that serves to reduce administrative costs.

The actual asset allocation for the pension plan as of June 30, 2021 and 2020, and the weighted average asset targeted allocation are as follows:

<table>
<thead>
<tr>
<th></th>
<th>Target</th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Equity funds</td>
<td>75 %</td>
<td>79 %</td>
<td>75 %</td>
</tr>
<tr>
<td>Fixed income funds</td>
<td>25</td>
<td>21</td>
<td>25</td>
</tr>
<tr>
<td>Total</td>
<td>100 %</td>
<td>100 %</td>
<td>100 %</td>
</tr>
</tbody>
</table>

The University’s estimated contribution for 2021 is $3,000.

Estimated future benefit payments as of June 30, 2021 are as follows:

<table>
<thead>
<tr>
<th>Fiscal year:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>2022</td>
<td>$ 4,254</td>

(10) Functional Classification of Expenses

The statements of activities present expenses by natural classification. The University also summarizes its operating expenses by functional classification. Functional categories are reported after allocating, on a square footage basis, expenses for operation and maintenance of plant, interest on indebtedness, and depreciation.
Operating expenses by nature and function are summarized as follows for the fiscal year ended June 30, 2021:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Instruction and departmental sponsored programs</td>
</tr>
<tr>
<td>Salaries and wages</td>
<td>$185,577</td>
</tr>
<tr>
<td>Employee benefits</td>
<td>52,649</td>
</tr>
<tr>
<td>Graduate student support</td>
<td>7,600</td>
</tr>
<tr>
<td>Purchased services</td>
<td>22,827</td>
</tr>
<tr>
<td>Supplies and general</td>
<td>13,698</td>
</tr>
<tr>
<td>Utilities and occupancy</td>
<td>10,595</td>
</tr>
<tr>
<td>Interest</td>
<td>28,131</td>
</tr>
<tr>
<td></td>
<td>$333,671</td>
</tr>
</tbody>
</table>

Operating expenses by nature and function are summarized as follows for the fiscal year ended June 30, 2020:

<table>
<thead>
<tr>

<tr>
<td>Utilities and occupancy</td>
<td>10,333</td>
</tr>
<tr>
<td>Interest</td>
<td>27,534</td>
</tr>
<tr>
<td></td>
<td>$362,934</td>
</tr>
</tbody>
</table>

(11) Commitments and Contingencies

All funds expended in conjunction with government grants and contracts are subject to audit by governmental agencies. In the opinion of management, any potential liability resulting from these audits will not have a material effect on the University’s financial position.

The University is a defendant in various legal actions arising in the normal course of its operations. Although the final outcome of such actions cannot currently be determined, the University believes that the ultimate unrecognized liability, if any, will not have a material effect on the University’s financial position.
(12) Related-Party Transactions
Members of the Corporation and senior management may, from time to time, be associated either directly or indirectly with companies doing business with the University. The University has a written conflict of interest policy that requires annual reporting by each Corporation member and University senior management. When such relationships exist, measures are taken to mitigate any actual or perceived conflict, including requiring that such transactions be conducted at arms’ length, based on terms that are fair and reasonable to and in the best interest of the University.

Effective July 1, 2017, the University, along with The Neurology Foundation, Inc.; University Emergency Medicine Foundation; University Medicine Foundation; University Surgical Associates, Inc.; Brown Urology, Inc.; and Brown Dermatology, Inc. (collectively the Foundations), joined to create the nonprofit Brown Physicians, Inc. (BPI). BPI is an affiliated clinical practice that will enhance the partnership between the Foundations and the Warren Alpert Medical School. Under the formation and support agreement, the University is obligated to pay BPI $25,000 over a 10-year period. In 2021, the University paid $2,500 to BPI, with the remaining $12,500 included in accounts payable and accrued liabilities at June 30, 2021. In addition, the University authorized a line of credit agreement with BPI, up to $30,000. There was no amount outstanding under the line of credit at June 30, 2021.

(13) Supplemental Disclosure of Cash Flow Information
Following is information intended to supplement the statements of cash flows for the years ended June 30:

<table>
<thead>
<tr>

<td>5,382</td>
</tr>
<tr>
<td>Increase (decrease) in payables for purchases of investments</td>
<td>31,969</td>
<td>(18,079)</td>
</tr>
</tbody>
</table>

(14) Subsequent Events
In September 2021, the University paid down Series 2011 tax-exempt bonds in the amount of $33,780 and the commercial bank term loan in the amount of $71,000. In addition, in September 2021, the University made a bullet payment of $57,640 on Series 2012 tax-exempt bond.

The University considers events or transactions that occur after the balance sheet date, but before the financial statements are issued, to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. These financial statements were issued October 27, 2021, and subsequent events have been evaluated through that date.
