- Information and key dates
  - Purchasing
  - Accounts Payable
  - Payroll
  - Cashier
  - General Accounting
- Reminders & Updates
Year-end close for Brown

- No significant change in process from prior year
- Don’t wait until July!

Importance of a Close

- To prepare complete and accurate financial statements for the University for the period ending June 30, 2024 to distribute to our stakeholders (i.e. trustees, government agencies, bondholders).

Purchasing

- 2024 Direction for Purchases
- Spend Category Reminders
- Creating New Orders
- Blanket Orders
- Receipting Goods & Services
- Closing Purchase Orders
- Tips to Avoid Delays

Jane Bonacich, SPC, Systems Operations Manager
2024 Direction for Purchases

- Follow Purchasing policies
  SPC Policies://www.brown.edu/about/administration/purchasing/policies
- Be sure to have an approved PO Requisition before purchasing goods or services; it is a violation of Financial Policy to request a Purchase Order after the purchase has been made
- Ensure the needed supplier is set up in Workday
- Ensure that needed documentation is available; each item must be scanned individually. Click External if it is to be sent to the Supplier.

Spend Category Reminders

- Using the correct spend category on a requisition is critical:
  - To obtain needed financial operational approvals
  - To ensure appropriate financial reporting (including in our 990)
  - To support the University's ability to perform spend analysis
- The Spend Category document is “living” document – Do not save it to your desktop!!!
- Please see the spend category listing on the Controller’s web site General Accounting

Tip: review spend category listing whenever requisitions are being created.

Creating New Orders

Reminders:
- Create FY24 requisitions as soon as possible
- BrownBuys is the quickest way to order
  - Strategic suppliers
  - Spend categories automatically populate
  - Standard requisition type
- Non-Catalog Items requisition:
  - Any requisition Type
  - Select appropriate spend category
  - Provide required pricing documentation / executed contract
Blanket Orders

- The use of blanket POs should be kept to a minimum
- Purchasing policy for documentation and bid thresholds apply to blanket POs
- Contact Purchasing@Brown.edu to discuss blanket orders before creating new ones for FY2025

Reminder – Departments are required to close FY 2024 purchase orders after the last invoice has been submitted

Receipting of Goods & Services

- Orders placed in June will have expense in FY2024 if goods/services are received by June 30th
- To receive, create the PO receipt ASAP in Workday, by using Create Receipt
- To streamline the payment process, attach the invoice copy to the Workday receipt before submitting
- Otherwise, the invoice must be emailed to Accounts Payable after the receipt is created

Tip: It is a best practice to attach the invoice copy to the Workday Receipt. Once the receipt is approved, the invoice will move directly to Accounts Payable for processing.

Note: Receipt must be received by AP with the attached invoice by July 17th before 11:00 a.m. This will allow AP to create the supplier invoice and route for internal approval.

Closing Purchase Orders

- All expired purchase orders must be closed
  - Workday will automatically close standard POs if fully receipted
    (approved status) balance is $0.00 and invoices are paid
  - Workday will not automatically close a PO with any balance amount
- Departments are responsible for closing:
  - Blanket POs for FY24 once the last invoice is received
  - Standard POs not automatically closed by Workday
- SPC will close BrownBuys orders
- Leaving POs open is an audit risk

Tip: Set up a routine to close purchase orders throughout the fiscal year
Closing Purchase Orders (continued)

To Find all open purchase orders, use the “Open Purchase orders” Workday report (includes Requisition Type).

- Keep both dates blank – (PO Date - Start & PO Date)
- Uncheck these highlighted boxes (De-select “Only Open Invoice Amount” and “Only Open Receipt Amount”)
- Enter applicable Worktags, such as Cost Center, Grant, etc.
- Tip: To easily see zero (0.00) and low dollar balances POs in the report, click in column header “Open to Invoice (New)” and select ascending order to sort by remaining balance.

Top reasons that Purchasing will send back a Requisition:
- Documentation is missing
- Spend category is incorrect
- Signature on contract is not authorized, or there is no signature
- Requisition includes supplier terms and conditions that have not been reviewed

Contract Review needed for a supplier’s quote:
- If there are terms and conditions included in a supplier’s quote, including hyperlinks to terms and conditions, be sure to have them reviewed by submitting a contract review request in BCM before creating a purchase requisition

Use Strategic suppliers when possible
- Click on the Strategic Suppliers menu option
- Go to SPC Home Page

For questions, contact Purchasing@Brown.edu

- Expenses $10,000 or greater for FY25 requiring payment prior to July 1st can be processed by Accounts Payable if clearly marked “PREPAID FY25” in the memo field.

Continually review the In Progress Payroll Actuals and Payroll Actuals reports in Workday.

Payroll Commitment Accounting – Coming Soon!

Beginning in July, Brown will enable Payroll Commitment Accounting to proactively forecast expected payroll costs for the fiscal year based on real-time position information for staff, faculty, postdocs, and supported graduate students.

Payroll obligations and commitments will be generated for filled positions and unfilled positions, respectively, based on position and costing information in Workday and will be viewable in financial reports.

Costing allocations should be reviewed for accuracy and updated to ensure projected accounting is accurate in preparation for the change. Cost Center Managers will receive additional information on managing accounting about impacted reports. Additional details on this change can be found on the Controller’s website.

Thank you, and happy year-end!
