Spanish level 600 or equivalent required.

**Application Deadline:**  
March 11, 2018

**Application:**  
Cover letter (500-700 words), resume, unofficial transcript, and contact info for one reference to Shankar Prasad, shankar_prasad@brown.edu

Associate Provost for Global Engagement
Brown University
The Institute of Research in Social Sciences (ICSO)

The Institute of Research in Social Sciences (ICSO) brings together scholars from schools and programs in the Faculty of Social Sciences and History at Universidad Diego Portales (UDP). Its objectives are:

- Research: Promote dialogue and academic collaboration between researchers in political sciences, history, and sociology, especially around themes of impact and public interest.
- Outreach: Contribute to the diffusion of topics associated with the Faculty and relevant to society.

Also, ICSO is a formative space for methodological training for advanced graduate students and alumni from the Faculty, which facilitates a constant sharing of feedback between professors and students.

Museo de la Memoria y DD.HH.

The Museum of Memory and Human Rights is a space that is meant to give visibility to the human rights violations committed by the State of Chile between 1973 and 1990, it also serves to dignify the victims and their families, and stimulate reflection and debate on the importance of respect and tolerance, so that these events never recur.

Un Techo para mi País

Un Techo Para Mi País works with the poorest families in different Latin American countries. Their first step is the construction of emergency homes. This allows them to draw attention to and to understand the realities of the marginalized settlements that have developed. They then develop integral programs of social development in areas such as education, micro-credit, job training and community development. They are determined to generate a social conscience in Latin America.

Casa Paz

Casa de La Paz is a foundation whose mission is to strengthen people's capacity to improve their own lives by taking care of the environment. The main areas of focus are: Environmental Education; Environmental Conflict Resolution, and Civic Participation.

CODELCO-Salud Ocupacional

CODELCO is a Chilean owned and operated independent company, foremost producer of mined copper in the world, a planetary-level leader in mineral reserves, and a powerful agent for development in Chile.
Fundación de Investigación Iguales

The Fundación de Investigación Iguales is an institution that works in favor of equal rights and to end discrimination based on sexual diversity. This organization has worked to create a proposal, with the formation of eight work commissions and four work projects, which in total include 250 people and thousands of supporters, while directing efforts to pass the Anti-Discrimination Law. The first steps were the replacement of the “Gender Identity” category, excluded until that moment, a new convocatory, the March for Diversity (October 1st, 2011), and the approval of the second step of the Anti-Discriminatory Law.

Fundación Hay Mujeres

The Fundación Hay Mujeres promotes the visibility of women's voices and opinions, and female leadership. They work primarily, though not only, with social media and a medium to promote an equitable presence in spaces and debates which form public opinion.

Centro de Estudios de la Mujer

The Centro de Estudio de la Mujer is dedicated to the study of gender, and conducts research, training, dissemination and consultations especially in the areas of Work and Employment, Citizenship and Political Participation, and Public Policies.

Ministerio de Justicia - Programa de Derechos Humanos

This program contributes to Chile’s development through the modernization of the justice system, promoting norms and public policies aimed at facilitating access to and protection of the rights of individuals, social inclusion and citizen security, all in a framework of respect for human rights.

Observatorio de Desigualdades

The Observatorio de Desigualdades was created in 2013 by the School of Sociology of Diego Portales University. The mission of the Observatory is to contribute to the academic and specialized debate on issues of inequality in Chile and Latin America. The Observatory conducts a series of talks every year, Diálogos de la Desigualdad, in order to promote debate and reflection on various issues of inequality.

Fundación Democracia y Desarrollo

The purpose of the Fundación Democracia y Desarrollo is to explore alternatives for new paths of development, promote citizen participation as a way to build a more just society, and deepen democracy.

Proyecto y Parque Pumalín, Tompkins Conservation

Pumalín Park is a private park located in the province of Palena, Los Lagos Region in Chile. It is administered by the “Pumalín Foundation”. The park has more than 325,000 hectares, mainly of temperate rainforest, whose rich biodiversity allows ecotourism.
activities. It was declared a Nature Sanctuary, granting it additional protection to ensure its ecological values and prevent development. After this, The Conservation Land Trust donated the protected lands to the Pumalín Foundation, a Chilean organization, to continue administering and preserving the park, under a private initiative but with public access.

**Templado Chile**

Templado is a consulting firm that provides assistance in the field of nature conservation and its ecological services, aiming at combining private and public interests in an ethically responsible way. Templado’s main objective of its consulting projects has been to support nature conservation actions in the private sector among individuals and corporations as in the public sector as well, with an emphasis in public policy for conservation incentives.

**WWF Chile**

The World Wildlife Fund Chile works to protect the terrestrial and marine environments of the priority site South of Chile, an area identified by WWF as one of the 35 most important places for conservation in the world, at the same level as iconic places like Galapagos or Madagascar.

**GeoAdaptive LLC.**

GeoAdaptive is a development planning and strategy company that specializes in the use of geospatial technologies to solve complex economic, environmental, and social problems in a variety of territories, scales and industries. We deploy and integrate advanced techniques in spatial economics, risk analytics, socio-ecological modeling, and place-based design, to create robust strategies for our clients worldwide, reducing their risk and maximizing their opportunities for sustainable and inclusive growth.

**Fundación Cosmos**

Through the implementation of accessible green areas, conservation of natural ecosystems, and local community involvement and education, we provide areas of connection in nature that contribute to individual, social, and environmental well being.

**Fundación Mar Adentro**

The Fundación Mar Adentro develops initiatives in art, education and nature that encourage a change with respect to the value that is placed upon our natural and cultural heritage, where our strength is in the creation of contents.

**Quintanilla & Busel Niedmann Chile**

Multidisciplinary team of professionals that approaches the world of law, business and public policies, cultivating an eminently technical and scientific profile, designing creative and avant-garde solutions for our clients.
Our team has experience advising large, medium and small clients including generators, transmitters and distributors of electricity, free clients, non-governmental organizations (NGOs), the Chilean government, cement companies, real estate companies, telecommunications companies, gas companies, chambers of trade, trade associations, software development companies, startups, and individuals.

**Fundación Meri** (Protecting Blue Whales & Oceans)

Foundation that works for the conservation and sustainable management of terrestrial, freshwater, marine and cultural heritage of the northern Patagonia through the Melimoyu Nature Reserve, we strengthen research, education and dissemination of knowledge about this area.

**Fundación Tata Mallku** (Indigenous & Cultural Work in Northern Chile)

This organization promotes interculturality, and fostering the teaching, promotion and valorization of traditions and the conservation of our ecosystems.

**Parque Tantauco**

Parque Tantauco seeks to protect, conserve, and disseminate a natural, unique, and wonderful heritage to be enjoyed by citizens.
