

Your new wellness portal makes living healthier **EASY & FUN.**

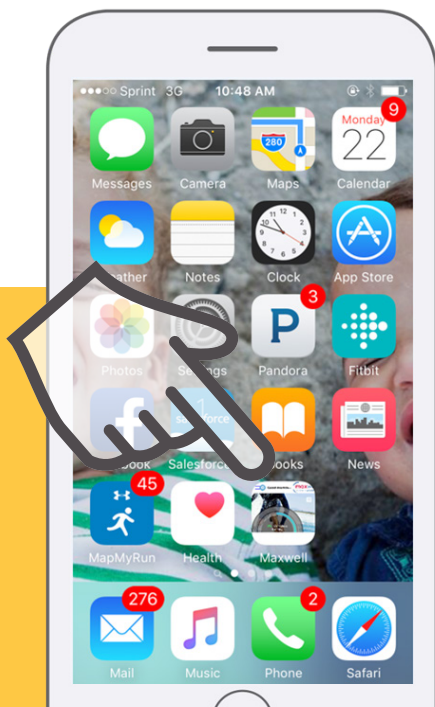

Speaking of easy... Save the portal address to your smartphone home screen and make it yours.

iPhone:

- Open your phone's internet browser and navigate to your [wellness portal](#)
- Tap the "Share" button 
- Tap "Add to home screen" 
- Edit the title of the icon that appears on your home screen
- To log in, go to your home screen on your phone, locate the icon, and tap to open
- We suggest adding a screen lock to your phone any time you have saved usernames or passwords on a device

Android:

- Open your phone's internet browser and navigate to your [wellness portal](#)
- Select menu 
- Select home screen. Chrome users select: add to home screen; Android internet users select: plus sign, home screen
- To log in, go to your home screen on your phone, locate the icon, and tap to open
- We suggest adding a screen lock to your phone any time you have saved usernames or passwords on a device
