EXPLORING DIVERSITY AT BROWN AND BEYOND
Achieving excellence in liberal education requires a commitment to diversity in the broadest sense. Brown’s Liberal Learning Goals encourage you to seek experiences inside and outside the classroom that will challenge your assumptions and allow you to develop a more open and inclusive view of the world and your place in it. This brochure describes a small sampling of the programs and offices that will help you engage with others and flourish as individuals. We invite you to immerse yourself in our lively, provocative, and stimulating community by taking advantage of the many things to do, people to meet, and places to visit at Brown.
