Payments to Foreign Nationals

Introduction
This policy states the requirements for paying foreign national visitors and suppliers, including: Visiting professors, teachers, researchers, scientists, guest speakers, as well as other types of independent contractor arrangements.

If you have specific questions about the immigration categories/visas relating to international scholars, contact the Office of International Student & Scholar Services (OISSS).

Policy Statement
Brown University will pay foreign national visitors, scholars, and suppliers only after determining that the payment request is permitted under United States statute.

- Departments submitting payment requests must collect documentation required in this policy to determine whether foreign nationals are eligible to be paid under common law, tax law, and immigration law.
  - Immigration law will be applied to determine whether the requested payment to the foreign national is permitted based on the visa the individual used to enter the United States.
  - Tax law will be consulted to determine the appropriate tax withholding from the payment request and to determine whether or not a tax treaty is available to reduce or eliminate the tax obligation.
  - Common law will be applied when payment is for professional services to determine whether the intended service to Brown can be the basis of a professional services arrangement and for the appropriate tax withholding from the payment request.
- Final decisions will be made by the Tax Office. Departments are encouraged to seek guidance from the Tax Office prior to engaging a foreign national as an independent contractor or guest speaker.
- **Brown University will not pay individuals who are not legally entitled to work in the United States.** This includes visitors on a B2/WT visa. Review the Payments to Foreign Nationals at Brown Chart for additional information.
- Payments will be subject to federal and state tax withholding as required by law.

One of its functions is to issue travel visas to foreign nationals allowing them to travel to the United States. Many foreign nationals need a visa to enter the United States to visit, work, and live. Visas do have payment restrictions. Commonly used visas include:
  - B1 or WB Visa: Business travelers may enter the United States using a B1, or “Visitor for Business”, Visa.
  - B2 or WT Visa: Leisure/tourist travelers may enter the United States using a B2 or “Visitor for Pleasure” Visa. **Payment is not permitted to B2/WT visa holders.**
