Travel Policy: Ground Transportation

Introduction
The Ground Transportation Policy articulates those expenses that are reimbursable for travel by Train, Bus, Rental Car, and use of Personal Vehicle.

The purpose of the Travel Policies are to provide clear policies and procedures that are compliant with state and federal regulations, promote safe travel, and allow for reasonable and manageable travel expenses while maintaining the necessary controls and accountability.

This policy is organized as follows:

- **Ground Transportation: Train, Bus, Rental Car & Personal Vehicle usage**
- **Personal Car Use**
- **Travel Advances**
- **Direct Bill of Transportation Expense**

Additional Travel Policies for the various components of travel can be found in the Related Policies section below.

Policy Statement
Brown University reimburses employees for ground transportation while travelling on University business. The most economical mode of ground transportation should be used to and from air, bus and rail terminals. Travelers may rent a car at their destination but public transportation and shuttle services should be considered.

Ground transportation expenses will be paid and/or reimbursed if the expenses are within the guidelines of this policy. The expenses must be reasonable, appropriately and adequately documented, properly authorized, and accommodated by the relevant operating budget or sponsored project funding.

All University funds—including gifts, grants, and contracts, shall be used in a reasonable and prudent manner and only for activities related to Brown’s primary mission of education, research and public service.

Additionally:

- Departments may elect to impose stricter budgetary controls over travel expenditures than those required by this policy.
- Travel charged to a sponsored project should follow the guidelines set forth by this policy unless the funding agency imposes greater restrictions.
- Intentional disregard for the University's travel policy and procedures may be considered grounds for disciplinary action, and/or for prosecution in the case of fraudulent misrepresentation of travel expenses.
- The authority for determining which travel expenditures are reimbursable under a particular grant or contract lies with the Office of Sponsored Projects.

Are the National Car Rental and Enterprise Rent-a-Car rates effective for international rentals?
No, these rates are for rentals in the United States, Canada and Puerto Rico. If renting internationally, we recommend using a well known company and comparing daily rates. When renting a car internationally, insurance must be purchased from the rental company. Brown University's preferred travel company, FCM, can assist with these transactions.

When renting from National or Enterprise do we still decline their insurance when renting or do we select it and it appears at a discounted rate?
When booking an auto rental in the United States, Canada, or Puerto Rico, use Brown University's contract number with either National Car Rental or Enterprise Rent-a-Car. When the contract number is used, insurance is included in the rate. If you are offered additional insurance, decline the insurance. If booking a 15 passenger van, contact Insurance and Purchasing Services for additional assistance.

When booking an auto rental for international travel (other than Canada or Puerto Rico), always select the insurance.

Is the contract number the same for both National Car Rental and Enterprise Rent-a-Car?
Yes, use XZ49501 for both car rentals.
