Committee Members in Attendance: Christopher Anderson, Daniel Resnick-Ault, Russell Carey, Norah Cicione, Max Clermont, Christopher Geggie, Ian Eppler, James Green, Stephen Lynch, Michelle Nuey, Justin Pace, Mark Porter, Bradley Silverman, James Simmons.

Guests: William Andrews, Kroll Group

Meeting Minutes: The Meeting Minutes February 29, 2012 were approved.

Introductions: Chair, Russell Carey, welcomed William Andrews, a representative from the Kroll Group. The Kroll Group is comprised of consultants hired by the University to assess campus safety and DPS operations following an increase in violent crime in the area. Colonel Porter indicated the consultants have been focusing primarily on technology enhancements and Jewelry District patrol operations.

Chief’s Report:

Campus Crimes and Service Activity Report:

- Calls of service: (every call that comes into the DPS Communications Center) hovering around the 12,120 calls from January 1st through April 7, 2012.

- Incident Reports generated: January 1st through April 7, 2012 – 539

- Admits/Unlocks: January 1st through April 7, 2012 – 1,760

- Total Alarms: January 1st through April 7, 2012 – 614. Alarms vary from panic alarms to general, intrusion, fire and Guardian alarms.

- Escort/transports: January 1st through April 7, 2012 – 170. This category represents late night courtesy transports provided by DPS after shuttle services have ended.

- Robberies: January 1st through April 7, 2012 – 7. We have seen increase in robberies in recent weeks. Patrols have been enhanced.

- Simple and Aggravated Assaults: January 1st through April 7, 2012 – 3
- **Laptop Thefts:** January 1st through April 7, 2012 – 11. There has been a slight increase in laptop thefts from off-campus housing facilities. Most of these thefts are a direct result of an unattended residence left unsecured.

**Citizens Complaint and Field Stop Data Reports, January 1 – April 7, 2012:**

Colonel Porter provided the group with an overview of the department’s complaint policy. All patrol shift supervisors are required to document all complaints formal and informal. To date this year, five (5) complaints have been received. Only one (1) complaint has been sustained. The department has seen a decrease in complaint submissions over the last three years.

**Citizen Complaints Data:** Four (4) complaints for this year; one (1) complaint came in this month bringing us to a total of five (5) for this year.

**Field Stop Data:** Total number of people stopped: 51, 25 of which were Field Stops. Our 2012 data thus far is average- we do look at officer initiated stops – we look at the distribution (time, etc.) of such stop data and pay close attention to the activity for each officer.

**Motor Vehicle Stops:** Numbers are constantly increasing. The most common violation cited are motorists running stop signs.

**Training Report:**

Annually each patrol officer receives approximately 40-hours of in-service training. As an accredited agency, Brown Public Safety usually goes above and beyond the training requirements set forth by the Commission of Law Enforcement Accreditation (CALEA). Department trainings are often tied into specific patrol objectives. The Training Bureau has coordinated more active shooter-specialized trainings. This unit is also responsible for coordinating new officer training. The department has experienced a hiring increase. Currently, all of our vacancies have been filled.

**Community Relations and Outreach Bureau Report:**

Michelle Nuey provided an overview of the department’s comprehensive community outreach efforts for the reporting period.

**Other Discussion:**

Guest, William Andrews, addressed the group and provided the opportunity for committee members to share their concerns about campus safety on main campus and also in the area of the new Knowledge District, also known as the Jewelry District.

Committee members shared comments and concerns related to campus lighting, safeRIDE shuttle services, and general personal safety concerns about the Jewelry District.
