Canvas is the learning management system used at Brown. It can be used to house course materials, support instructor-student and student-student interaction and feedback and to grade work.

Options for effective use of Canvas include:

- Publish your syllabus
- Create modules, to construct pathways through your course
- Peer review
- Embedding low-stakes quizzes to encourage student reading and ongoing preparation
- Using rubrics to quickly grade papers
- Collect analytics, and develop a mastery-based assessment system
