URBAN ANALYSIS
PART-1
it is first important to note the city of providence is located on occupied indegeonous lands home to the narragansett and wampanoag people.
zoning
infrastructure -- roads

scale: 1" = 500'

legend

Arterial roads: [Red]
Local and collector roads: [Orange]
Previous road location:
- US-6
- I-95
- I-195
- Old I-195
- Memorial Boulevard
- Weybosset Street
- Broad Street
- Dyer Street
- Eddy Street
- South Water Street
- South Main Street
- Point Street
East boundary: Defined by South Main Street, just before the start of the hill. This area is not quite College Hill or Fox Point yet, even though it lies with them on the eastern side of the river.

South boundary: Defined by where I-195 used to be located.

West boundary: Defined by Weybosset Street, the last “fully Downtown” street before beginning the transition to the Jewelry District.
Below ground level:
Ground level:
Low-rise (3 stories or less):
Mid-rise (4 to 9 stories):
High-rise (10 stories or more):

Note: The only colored areas outside the immediate area of interest are those which are significantly or lower- or higher-rise than their surroundings. For example, low parts of the highway system are colored blue and skyscrapers are colored red.

legend

Offices
Educational and Medical
Retail, Food, and Entertainment
Governmental and Religious
Parking Garages, Industrial, and Under Construction
Residential and Hotels
Under contract or construction

Note: Many of these buildings are mixed-use, so they technically should have multiple classifications. They are simplified to show their dominant uses for the purpose of this map.
