

Related Sciences (maximum of two)

The Core may include up to two related science courses. **These must be above prerequisite level** and suitable for science concentrators. Pre-approved courses are listed below; other courses not listed below should be discussed in advance with your concentration advisor to determine whether relevant and appropriate for use towards concentration requirements.

Please note that related sciences **may not be used to satisfy laboratory or upper level course requirements** in the AB/ScB Biology core. Not all courses are offered every semester. Students should check Courses @ Brown for the most up to date schedule.

Department	Courses
Anthropology	ANTH 1720 (The Human Skeleton)
Applied Mathematics	APMA 0160 and above
Chemistry	CHEM 0360 and above
Cognitive Linguistic & Psychological Sciences	Courses with substantive focus on neurobiology Courses with animal behavior focus Computational or statistics courses Courses with primary psychology focus are not applicable
Computer Science	CSCI 0111 and above
Data Science	DATA 1010 and above
Earth, Environmental and Planetary Science	EEPS 0220 and above
Engineering	ENGN 0150, ENGN 310 and above Not allowed, business/entrepreneurship courses such as. ENGN 0900, 0930A, 1010
Environmental Studies	ENVS 0490 AP placement/credit for ENVS 490 not applicable
Mathematics	MATH 0180 and above
Physics	PHYS 0160, PHYS 270 and above
Statistics	APMA 0650, BIO 0495, CLPS 0900, PHP 1501, PHP 1510, PHP 1560, SOC 1100, others with advisor approval
