Annual Progress Review
Brown University
Center for Biomedical Engineering

Name: Student, Ima  Year matriculated: Fall 2010  Advisor: Professor, Dr.

Courses:

- ENGN 1210 – Biomechanics, Grade: A
- BIOL 1150 – Stem Cell Engineering, Grade: C

I still have 5 courses to complete to fulfill my 2-2-2 requirement.

Awards and accomplishments:

- BMES travel award
- Nobel Prize for Medicine
- NSF Fellowship

Conference abstracts:

Publications:

Other research progress:

I successfully passed my qualifying exam.

I have completed the first of four specific aims laid out in my thesis proposal. This involved establishing a practical theory for cold fusion. In the coming year, I plan to design and build a prototype reactor to remain on track for successful completion of my thesis.
