

## SNAPSHOT: CLASS OF 2022

### Graduate & MD programs

- MD Icahn School of Medicine, Mount Sinai, NYC
- MD Brown University Warren Alpert Medical School
- PhD Chemistry MIT
- PhD Bioinformatics and Integrative Genomics, Harvard
- PhD Chemical Engineering, UC Irvine

### Industry

- Research National Institute on Aging
- Research Barrow Neurological Institute
- Biotech and Healthcare Consulting
- Research Brigham and Women's Hospital
- Research National Institute of Health

WELCOME  
TO  
CHEMISTRY @ BROWN

**BROWN**  
Department of Chemistry

Brown Chemistry Alumni & Career  
Networking Group

## CHOOSE FROM 3 CONCENTRATIONS.

### CHEMISTRY SC.B. / A.B.

Sc.B.Tracks: Chemistry, Materials Chemistry, & Chemical Biology

### CHEMICAL PHYSICS SC.B.

Offered jointly with the Department of Physics

### BIOCHEMISTRY SC.B.

Offered jointly with the Department of Molecular Biology, Cell Biology, & Biochemistry

## DO THE RESEARCH THAT MATCHES YOUR UNIQUE INTERESTS.

Our concentrators are active members of over 30 research groups in the Chemistry Department, across Brown, and at affiliated hospitals.

INTERESTED IN DOING RESEARCH IN THE CHEMISTRY DEPARTMENT?

**Contact us!**

<http://bit.ly/BrownUGgradChem>

## GAIN EXPERIENCE + GET PAID.

Many of our students become paid TAs (Teaching Assistants) for introductory courses. In addition to semester research for course credit, students are paid for summer research at Brown. These opportunities are great professional experience and resume builders.

## CHOOSE FROM A WIDE RANGE OF COURSES.

In addition to core classes, you have the opportunity to choose from a range of undergraduate (and even graduate-level) courses:

EXAMPLES INCLUDE:

- First Year Seminar - Energy
- Nanoscale Materials: Synthesis & Applications
- Chemical Biology
- Chemistry and Art
- Organometallic Chemistry
