

International Health Insurance Information

While any costs students incur regarding health care or medical emergencies while traveling internationally are ultimately the student's responsibility (see Release and Waiver Form), students can, in many instances, submit any costs incurred to their health insurance providers for reimbursement. For that reason, we ask that all Brown students who travel internationally secure health insurance. If you have the Brown Student Health Insurance, you are covered for a 12-month period. If you do not have the Brown Student Health Insurance, we ask that you find out if your personal insurance covers you during your travel period and whether the insurance will reimburse you for health costs incurred at an international location.

Some international facilities/physicians will submit claims directly to your insurance, but many will not. If the facility/physician will not submit a claim, you should expect no reimbursement for your costs, but if the facility/physician will submit a claim, you will have to pay for the service and submit the bills to your insurance provider when you return. You should keep all bills, statements, receipts (translated into English) for your records. Please contact the Brown Insurance Office if you need additional clarification: (401) 863-9481, or visit the website: http://www.brown.edu/Administration/Office_of_Insurance_and_Risk/

Please indicate below which Health Insurance you will be using during your international travel:

1) _____ I have the Brown Student Health Insurance

Effective Dates _____

2) _____ I have my own personal Health Insurance

Name of your Health Insurance _____

Provider _____

Effective Dates _____

Student Signature

International Location

Dates of Travel
