Welcome to Brown!

Every part of our campus community—the faculty, staff, and a legion of students including the Orientation Welcoming Committee (OWC)—is looking forward to greeting you and assisting you. Orientation provides a unique opportunity for you to learn about Brown’s extraordinary academic and co-curricular opportunities while meeting fellow members of the Class of 2016.

Orientation is planned with four primary goals in mind.

To introduce you to Brown’s expectations about how to live and learn in your new community, there are a series of mandatory all-class meetings. These meetings will introduce you to the Principles of the Brown University Community, which define the context for all of our interactions, both academic and co-curricular.

To help you learn about the nature of liberal education at Brown, you will participate in various meetings and seminars designed to help you understand your role in crafting your education and in advising partnerships.

To familiarize you with Brown’s campus environment and the various offices, clubs, and centers that are here to expand your co-curricular horizons, you are invited to a host of open houses, forums, and Activities Night 2012.

To facilitate getting to know your class as a whole, we offer a broad range of social activities.

During Orientation, look for students in Orientation Welcoming Committee t-shirts. They will be happy to guide you and answer your questions. If we don’t know the answer, we will refer you to someone who does.

We wish you all the best, and look forward to meeting you this fall.

Sincerely,
The Orientation Planning & Orientation Welcoming Committees

The Principles of the Brown University Community declare that “Brown accepts and encourages individuality while also affirming the community dimensions of college life....The Brown community therefore depends on individual self-discipline and mutual respect to further the well-being of all its members.” Individual integrity and self-respect, respect for the rights and concerns of others, respect for property, and respect for the integrity of the academic process are the fundamental tenets of Brown. The mandatory Class Meetings that take place during Orientation will cover these principles in greater detail, and are vital to the health of the Brown community.

PARKING

College Hill is crisscrossed by narrow New England streets, which are not conducive to parking large numbers of vehicles. Many families find it most convenient to unload students’ belongings onto the sidewalk and to have one family member remain with them while another finds a parking spot. Parking in campus lots is permitted on Saturday, September 1, and Sunday, September 2. While ticketing tends to be relaxed during move-in, it is important to heed signs pertaining to handicapped spaces and tow zones.

If handicapped parking is needed, street spaces are available and special temporary arrangements may be possible in Brown lots. For additional information, please contact Student and Employee Accessibility Services (SEAS) at SEAS@brown.edu or (401) 863-9588.

LANGUAGE PLACEMENT EXAMS

All first-year and transfer students who intend to study a foreign language with which they have some familiarity (whether through formal study at the pre-college or college level or through significant exposure to the language through extended stay abroad or through use in your family), and who have not previously submitted scores from the SAT Achievement Test or an Advanced Placement Test in that language, are required to take a Brown foreign language placement test. If you have submitted scores on an SAT Achievement or Advanced Placement Test, but gained significant language experience during the summer (e.g., by taking a summer course before coming to Brown or by a stay of considerable duration in the relevant foreign country), you should take a Brown foreign language placement test. If you know a second foreign language, we suggest you also take a placement test in that language. Remember to review the language(s) to ensure an accurate placement.

BIOLOGY PLACEMENT EXAM

September 3 or September 4 (3:00 pm–4:00 pm)
Bio Med Center, Room 112B
Biology 0200, offered in Semester 2, is the gateway course required for most of the Biological Sciences concentration programs. (See http://bms.brown.edu/bug/conc3.html.) However, if you received a score of 4 or 5 on the Advanced Placement Test in Biology, or a commensurate score on the IB or A levels, you are exempt from the requirement to take Biology 0200 and are eligible for a Biology credit equivalent to this course. If you have not taken the AP test, but believe that you have a strong background in the biological sciences, you may be exempted from the Biology 0200 by passing the Biology Placement Test. The placement exam will be given again at the start of Semester 2, or at other times by arrangement (contact Jody_Hall@Brown.edu).

CALCULUS PLACEMENT EXAM

September 3 (1:00 pm–3:00 pm)
Salomon Center, Room 001
If you have not taken the Advanced Placement Test in calculus, but have studied calculus in high school and intend to continue your study of mathematics at Brown, you are encouraged to take the Calculus Placement Exam. The exam will be on Monday, September 3, at 1:00 pm in Lower Salomon Center, Room 001. Results and recommendations will be available at the time of the test. No previous notification is necessary to take the calculus test.

If you have any questions about your placement in a mathematics course, it is advisable to take the test and then consult with the placement advisor, or one of the instructors of the course you are considering. This exam is optional and purely for the student’s benefit in defining the best placement in a math course, and does not carry any advanced placement or other credit. For further information and FAQ, please visit the Math Placement Website: http://www.math.brown.edu/~res/DUS/Placement/.

MUSIC PLACEMENT EXAMS

Placement in many music courses, the Applied Music Program, and performance ensembles is determined by audition during the first week of classes each semester. “Introduction to Music Theory” (MUSC 0400) and “Theory of Tonal Music” (MUSC 0550) require placement exams administered at the first class meeting. Students interested in testing out of MUSC 0550 must take this placement test, which is administered only at the beginning of the fall semester. In addition, a theory exam is administered in the fall on the first day of classes for those students who wish to test out of the theory requirement for the Applied Music Program. Consult the Music Department website for details and a complete list of course offerings, programs, and prerequisites.

CHEMISTRY PLACEMENT

Students who plan to take Chemistry are required to pass a short placement exam that will be offered online from August 20–October 2; to have successfully completed CHEM0100; or to have scored a 4 or 5 on the AP Chemistry exam. The official AP test results must be on file with the Registrar’s office. (Placement out of CHEM0330 is generally appropriate only for students who have completed IB-Higher Level Chemistry exams, British A-level exams, or equivalent courses at another university.)

The Chemistry online exam will be available from August 20–October 2. The results of this online placement exam will be available immediately and will determine your course placement in Chemistry. You must score a minimum of 8 in order to enroll in CHEM0330. If you score below 8, please enroll in CHEM0100. Please access the link through the secure student portion of self service banner web https://selfservice.brown.edu/ss/twbkwblsp_GenMenu?name=homepage. This is the same tool used to search for courses and to register during orientation.

PSYCHOLOGY PLACEMENT

Students with an AP score of 4 or 5, or with a Higher Level IB score of 5 or above, may receive departmental credit for Introductory Psychology (CLPS0010). If placement for CLPS0010 is granted on the basis of AP or IB test scores, then another CLPS course (at any level) must be substituted.
