Economics AB Concentration Worksheet

Planning to major in Economics? Please fill out this course plan and bring it to your meeting with the concentration advisor. You will normally take 11 courses in total for the concentration, or 10 courses if you placed out of the Math requirement. It is a good idea to think not just about which courses to take, but also in what order. Your concentration advisor can help you figure out the optimal plan.

1. Mathematics requirement (1 course)
   - MATH 0100 Introductory Calculus Part II
   - OR ECON 0170 Math for Economists
   - OR Higher-level calculus MATH course
   OR Place out of math requirement

2. Basic Economics classes (3 courses)
   - ECON 0110 Principles of Economics
   - OR Place out of Principles requirement
   AND ECON 1110 Intermediate Microeconomics
   AND ECON 1120 Intermediate Macroeconomics

3. Econometrics and Statistics (2 courses)
   - ECON 1620 Introduction to Econometrics
   - OR ECON 1620 Introduction to Econometrics
   - OR APMA 1650 Statistical Inference I
   - OR APMA 1655 Statistical Inference I
   - OR MATH 1620 Mathematical Statistics
   AND ECON 1629 Applied Research Methods for Economists
   AND ECON 1630 Econometrics I
   AND ECON 1630 Econometrics I
   AND ECON 1630 Econometrics I
   AND ECON 1630 Econometrics I

4. Economics Electives (5 or 6 courses)
   Choose five 1000 level electives, see below.
   - Number
   - Title
   - Professional Track?
   - yes
   - no
   If placed out of Econ 0110 (Principles), one additional 1000 level course
   - ECON

Resources:
For the most up-to-date list of concentration requirements and recommended sequence of courses, please visit
http://brown.edu/academics/economics/undergraduate/concentrations/requirements---ab---degree---economics
http://brown.edu/academics/economics/undergraduate/sequence---courses

In order to place out of ECON 0110 (Principles) and MATH 0100 (Calculus II), you need to submit your AP or IB scores to the registrar. To get credit for British A-levels, please see the transfer credit advisor. For more information, see
http://bit.ly/1aVkXFZ

The department offers a rich set of elective classes from all areas of economics. The most up-to-date record can be found on Banner. A list of available electives, grouped by field of study, can be found here:
http://brown.edu/academics/economics/undergraduate/areas-study-economics

It is recommended (and required for an honors degree) to take one class each in the "data methods" and the "mathematical economics" category, as well as an upper-level seminar. For a list of data methods and mathematical economics courses, see:
http://brown.edu/academics/economics/undergraduate/course---groupings

On the professional track, see
