The Department of Behavioral and Social Sciences’ i-BSHS (Innovations in Behavioral and Social Health Sciences) lecture series fosters collaborative discussion on innovative behavioral and social science-based approaches to improving population health.

Lisa A. Marsch, PhD is the Director of the Center for Technology and Behavioral Health, the Director of the Dartmouth Psychiatric Research Center, and Professor of Psychiatry at the Geisel School of Medicine at Dartmouth College. Her research is focused on the application of state-of-the-science technologies to the delivery of behavioral health interventions. This research has provided novel empirical information on the role technology may play in improving the prevention and treatment of behavioral health issues in a manner that increases access to care, is cost-effective, ensures fidelity, and enables the rapid diffusion and widespread adoption of science-based interventions.

Continue the conversation with our speaker over a light lunch immediately following the talk in room 247.
