The Department of Behavioral and Social Sciences’ i-BSHS (Innovations in Behavioral and Social Health Sciences) lecture series fosters collaborative discussion on innovative behavioral and social science-based approaches to improving population health.

“PrEP Three Ways: Tailoring HIV Pre-Exposure Prophylaxis Programs to Local HIV Epidemics.”

Dr. Sullivan has worked on HIV testing programs with migrant farm workers, with the inclusion of Hispanic participants in online sexual health surveys. He has also investigated methods to increase participation of African American and Latino MSM in his research. Dr. Sullivan mentors and advises students inside and outside the classroom. He mentors students writing masters theses, including one on HIV testing among MSM in Puerto Rico. In addition, Dr. Sullivan encourages student involvement in his projects. In the past, both masters and doctoral students have been involved in projects in the capacity of focus group discussion planning, and transcription/translation.

Patrick Sullivan
PhD DVM
Charles Howard Candler Professor of Epidemiology, Emory University
