## AB PUBLIC HEALTH DEGREE REQUIREMENTS

### Four/Five Required Courses

1. **PHP 0310 Health Care in the United States** (best taken as a freshman or sophomore; SPR)
2. **PHP 0320 Introduction to Public Health** (prerequisite to PHP0850; best taken as a freshman or sophomore; FALL)
3. **PHP 0850 Fundamentals of Epidemiology** (should be taken by end of junior year; FALL)
4. **PHP 1501 Essentials of Data Analysis** (should be taken as a sophomore or junior; FALL)
5. **PHP 1910 Public Health Senior Seminar** (required of all NON-HONORS concentrators; HONORS students)

### One of these Environmental Health and Policy electives

1. **PHP 1101, World of Food: Personal to Global Perspectives on Nutrition, Agriculture & Policy** (SUM)
2. **PHP 1700, Current Topics in Environmental Health** (FALL)
3. **PHP 1710, Climate Change and Human Health** (FALL)
4. **BIOL 1820, Environmental Health and Disease** (SPR)
5. **PLCY 1702E, Environmental Law and Policy** (SPR)

### One of these Health, Health Care Systems and Policy electives

1. **PHP 1070, The Burden of Disease in Developing Countries** (FALL)
2. **PHP 1100, Comparative Health Care Systems** (FALL)
3. **PHP 1500, Global Health Nutrition** (SPR)
5. **PHP 1530, Case Studies in Public Health: The Role of Governments, Communities and Professions** (SPR)
7. **ECON 1360, Health Economics** (SPR)
8. **PLCY 1700K, Health Policy Challenges** (FALL)

### Honors (2 courses)

1. Submit prospectus by May (or Nov) of 6th semester
2. Be in good academic standing
3. Demonstrate academic excellence - more A’s than B’s in PH courses
4. Enroll in PHP 1980 in both semesters of senior year to conduct research and write the honors thesis.
5. Submit an honors thesis judged to be of superior quality in April of 8th semester (Nov. for mid-year completers)
6. Present a poster or deliver an oral presentation of thesis work

### One of these Social & Behavioral Science for Prevention electives

1. **PHP 1010, Doctors & Patients - Clinical Comm. in Medicine** (SUM)
2. **PHP 1400, HIV/AIDS in Africa: A Multidisciplinary Approach to Support HIV/AIDS Care & Treatment Programs** (SPR)
3. **PHP 1540, Alcohol Use and Misuse** (FALL)
4. **PHP 1600, Obesity in the 21st Century: Causes, Consequences & Countermeasures** (SPR)
5. **PHP 1680N, Tobacco, Smoking, and the Evil Empire** (SPR)
6. **PHP 1740, Principles of Health Behavior & Health Promotion Interventions** (FALL)
7. **PHP1880, Meditation, Mindfulness and Health** (SUM)
8. **PHP 1920, Social Determinants of Health** (SPR)
9. **PHP 2340, Behavioral and Social Science Theory for Health Promotion** (FALL)
10. **PHP 2365, Public Health Issues in LGBT Populations** (SPR)
11. **POLS 1740, Politics of Food** (FALL)

### Four additional approved electives

no more than two of which may be Human Biology/Physiology courses

(see list on reverse)

### Study Abroad/Study Away

1. Best semester: Spring of junior year
2. Courses taken elsewhere may be applied to non-core courses (electives).
3. Meet with concentration adviser and be prepared to provide syllabi for courses to be considered for transfer (up to 2 per semester).
4. Pre- and post-completion permissions and forms required.

### AB/MPH

1. Must qualify for the Honors Track and successfully complete an Honors Thesis
2. Take PHP 2120 (FALL) instead of 0850
3. Take PHP 2507 & PHP 2508 instead of 1501
4. Take PHP 1700, 1710 or 2220E (FALL)
5. Take 2 additional courses in first 4 years
6. Apply in spring of sophomore year or during junior year through the Graduate School; decisions made by the MPH Admissions Committee

---

3.1.17
Four additional approved electives, no more than two of which may be Human Biology/Physiology courses. Note that any PHP course can be counted as a general elective.

The four electives may be selected from all PHP course offerings as well as the course lists of the defined content areas listed above or the approved general electives listed here. Bear in mind that this list can never be fully comprehensive as course offerings are always changing across campus. Please feel free to discuss the suitability of a course not found on this list with your advisor.

AFRI 1060W, Policy, Culture and Discourse that Shape Health and Access to Healthcare (FALL)
AMST 1601(also SCSO 1110 & GNSS 1960B), Health and Healing in American History
