LGBT Populations and Human Rights in Ukraine

Will Ukraine pass the democracy test?

Bogdan Globa, the Chairperson of Charitable Organization Fulcrum, was the first open gay man in Ukraine to speak to the Parliament on LGBT discrimination. He is one of the organizers of Equality Pride marches – mass events with a focus on LGBT rights as human rights. He is also the initiator of Ukraine Index of Corporate Equality.

Mr. Globa will talk about his personal experiences with LGBT stigma - and the activists’ progress in removing structural barriers in Ukraine’s health care and legal system.
