

FALL 2011 COLLOQUIA

POPULATION STUDIES & TRAINING CENTER

David A Plane

Professor of Geography and Development

University of Arizona

**co-sponsored by PSTC & S4*

“Unpacking and Tracking the Mean Center of Population and the Hoover Index: Demographic Change and Recent Trends in the Geography of U.S. Settlement”

Thursday, October 13, 2011

12:00 noon

Seminar Room, Menco Hall
68 Waterman St.

David Plane received his PhD from the University of Pennsylvania in 1981. Dr. Plane is Professor of Geography and Regional Development at the University of Arizona, Tucson. His research focuses on migration systems, population distribution in the United States, and the modeling of spatial interaction. A Fellow of the Western Regional Science Association and of the Regional Science Association International, he has served as President of the Association of Pacific Coast Geographers, the Population Specialty Group of the Association of American Geographers, the Pacific Regional Science Conference Organization, and the North American Regional Science Council. He co-authored, with Peter Rogerson, the highly acclaimed text: *The Geographical Analysis of Population: With Applications to Planning and Business*.
