## Research / Design in the Spatial Humanities

Erik Steiner, SPATIAL HISTORY PROJECT, STANFORD UNIVERSITY

November 13, 2015 • 12:00 NOON

Patrick Ma Digital Scholarship Lab, ROCKEFELLER LIBRARY

This talk will be an open reflection on the experience of developing spatial/digital/geo humanities projects at the Center for Spatial and Textual Analysis (CESTA) at Stanford. The speaker will elaborate on projects CESTA has undertaken, focusing on the practical details of how such projects operate. He will also discuss how (and whether) creative practices in data visualization and cartography are contributing substantively to collaborative research.
