Asian American Studies Concentration
Asian American Studies Program is an interdisciplinary and comparative field that explores the histories, cultures, and experiences of people of Asian and Pacific Islander descent. The program offers students a perspective on the American experience within and across cultural and global contexts. It encourages students to pursue issues of Asian Americanities and issues such as history, literature, sociology, and art.

Asian American Studies is an interdisciplinary field that explores the histories, cultures, and experiences of people of Asian and Pacific Islander descent. The program offers students a perspective on the American experience within and across cultural and global contexts. It encourages students to pursue issues of Asian Americanities and issues such as history, literature, sociology, and art.

The purpose of this Asian American Studies Program is to meet the needs of students and communities that share a need for knowledge about the past, present, and future of Asian American experiences. The program focuses on the perspectives of Asian Americans and their contributions to the United States. To facilitate the study of these complex social phenomena, courses in the program are interdisciplinary and comparative, drawing on expertise in anthropology, history, literature, sociology, and art.

Asian American Studies (AAS) is an interdisciplinary and comparative field that explores the histories, cultures, and experiences of people of Asian and Pacific Islander descent. The program offers students a perspective on the American experience within and across cultural and global contexts. It encourages students to pursue issues of Asian Americanities and issues such as history, literature, sociology, and art.

The Department of Asian American and Asian Studies at the University of California, Berkeley, is an interdisciplinary program that explores the histories, cultures, and experiences of people of Asian and Pacific Islander descent. The program offers students a perspective on the American experience within and across cultural and global contexts. It encourages students to pursue issues of Asian Americanities and issues such as history, literature, sociology, and art.

Asian American Studies Program offers fifty sections of classes taught by a faculty of thirty-plus to approximately two thousand students each semester. Students may take Asian American Studies courses for a baccalaureate major or minor, and to partially fulfill Liberal Studies major, General Education, and University statutory requirements. The program graduated its first class in 1997. The master's degree program began its first semester in the spring of 2000 and graduated its first class in 2002. The purpose of the Asian American Studies Program is to meet the needs of students and communities that have a need for knowledge about the past, present, and future of Asian American experiences. The program focuses on the perspectives of Asian Americans and their contributions to the United States. To facilitate the study of these complex social phenomena, courses in the program are interdisciplinary and comparative, drawing on expertise in anthropology, history, literature, sociology, and art.
