**Science Panel 1/24/15, 1:30PM, MacMillan 115**

**Frannie Kronenberg** 1984 - Massachusetts General Hospital, Medical Director
Frannie is currently the Medical Director of a large Internal Medicine practice at MGH, committed to innovation and new models of primary care, including the patient centered medical home and the use of patient portals as care delivery tools and the optimal use of electronic health records. Previously, she was the physician lead of a health system patient portal and served as a Chief Medical Officer of a 400+ bed community hospital. Frannie received her Masters in Health Care Management from the Harvard School of Public Health and studied Art History at Brown.

**Campus Affiliation:** Women interested in medicine

**Shane Easter** 2010 - Wells Fargo, Environmental Finance Analyst
Shane graduated from Brown with a Bachelor of Science in Environmental Science. Post-Brown, he has worked in academic research at the Jasper Ridge Global Change Experiment at Stanford University, and for a clean-tech energy efficiency start-up company called EcoFactor. Most recently, he joined the Environmental Finance Group at Wells Fargo where he helps to deploy capital toward solar energy projects/investments.

**Virginia Hughes** 2005 – BuzzFeed, Science Writer
Virginia is a Brooklyn-based journalist specializing in brains, genes, and drugs. She recently joined BuzzFeed as their first science writer where she is tasked with building a team of writers for the sector. Previously, Virginia was a contributing editor at Popular Science and her blog, Only Human, is published by National Geographic. Her writing has also appeared in many general interest publications, including The Atlantic, The New Yorker, Slate, and Smithsonian.

**Jill Javier** 2007 – Medtronic, Senior Associate Strategy and BD
Jill Javier graduated from Brown in 2007 with a degree in Biomedical Engineering. At Brown, Jill was involved with Fusion Dance Company, Filipino Alliance, and the Meiklejohn Advising Steering Committee. After Brown she worked as a health economic consultant at United BioSource Corporation (now part of Express Scripts) in Bethesda, MD. She served as Co-President of the Brown Club of Washington DC and now serves as President-elect of Brown Alumni Association’s Asian/Asian American Alumni Alliance (A4) board. She graduated from Duke University’s Fuqua School of Business focusing on Health Sector Management, strategy, and marketing. She currently works at Medtronic in their Atrial Fibrillation Solutions group doing strategy and business development.

**Campus Affiliation:** Brown Center for Students of Color

**Joel Schwartz** 2008 - Sproutel, VP Product
Joel graduated with a degree in mechanical engineering before joining an alternative asset manager in New York during the height of the Great Recession. After two years as an analyst, Joel thought it would be good to get started on a graduate degree and took a job in an orthopedics research lab while deciding to apply for PhD or MD programs. Instead, electrical engineering seemed more interesting. He devoted his time in and out of work to PCB design and fabrication, and learning new programming languages. Now, Joel is part of Sproutel, a Providence-based startup company building educational robots like Jerry the Bear to improve patient outcomes among children with chronic illnesses.

**Lee Stevens** 2012 - American Museum of Natural History, New Media Specialist
At the Museum, Lee works closely with scientists to create videos that educate the public about recent research and discoveries. She completed an honors research thesis at Brown and received a degree in Human Biology, both of which fostered her ability to “translate” the complex language of sciences for the broader community. While at Brown, she managed the Multimedia Labs and interned at a documentary film company, as well as produced animated videos.
