

**Joint Engineering & Physics Instrument Shop (JEPIS)**  
**Rate Schedule for INTERNAL Brown Users**  
**Effective July 1, 2021 – June 30, 2022 (Rates Subject to Change)**

The purpose of the JEPIS rate schedule is to offset the annual cost of operating the facility by collecting a fee based upon usage.

Internal Brown users must have a valid Brown University ID and academic appointment and must provide a default account number from the Brown University Workday System. If a user’s default account is set to charge F&A, then it will be applied to the following internal rates.

Effective July 2018, the Brown internal user rate for all IMNI facilities will be extended to Brown University Hospital Affiliates and Rhode Island Academic Institutions. The following rate are direct cost dollars.

Joint Engineering & Physics Instrument Shop (JEPIS)			
The usage calculation is based on an hourly rate, with actual usage being rounded to the quarter hour. Any materials purchased for a work order will be invoiced based on actual material costs, with the exception of the Rapid Prototype Machine, which is invoiced based on materials costs x3.			
Description	Research Use	Instructional Course Use	Unit
<b>Machine Shop Labor Rate</b> Cost of actual materials will be added (if applicable).	\$55.00*	\$55.00*	per hour
	*Plus actual materials		
<b>Overtime Machine Shop Labor Rate</b> Prior approval required. Cost of actual materials will be added (if applicable).	\$83.00*	\$83.00*	per hour
	*Plus actual materials		
<b>Electrical Discharge Machine (EDM)</b>	\$41.00	\$41.00	per hour
<b>Rapid Prototype Machine (RPM)</b>	\$8.00	\$8.00	per hour
	*Plus materials x3
