Barbara Anton Internship Grant

Students planning to do a senior honors thesis involving an internship or volunteer work in a community agency are eligible to apply for the Barbara Anton Internship Grant awarded annually by the Pembroke Center for Teaching and Research on Women. The work must be in some way related to the welfare of women or children and the \$1,000 grant used to further research. The grant commemorates Barbara Anton's many contributions to the Pembroke Center over nearly two decades as Director of the Pembroke Associates organization.
