
A Public Lecture by
Nancy Hopkins, PhD
Massachusetts Institute of Technology
Amgen, Inc. Professor of Biology

Dr. Hopkins looks back on what has been learned at MIT about invisible barriers that inhibit women’s advancement in science and steps MIT took to reduce such barriers. She asks whether conscious and unconscious barriers still inhibit women’s full participation in science.

Wednesday, October 21, 2009
4:30 - 5:30 PM
Reception to Follow

Brown University
Life Sciences Building
Sidney E. Frank Hall
