
Prof. Francesco MAINARDI (Mathematical Physics)
Department of Physics and Astronomy, University of Bologna
Via Irnerio 46, I-40126 Bologna, Italy
TEL: +39-338-855.1358;
E-MAIL: francesco.mainardi@bo.infn.it; fracalmo@gmail.com
HOME PAGE: http://www.fracalmo.org/mainardi/index.htm
PROFILE: http://scholar.google.com/scholar?hl=en&lr=&q=f+mainardi

BOOKS

This book contains selected lectures held at the CISM Course organized by the Editors, held in Udine (Italy) from 23 to 27 September 1996, entitled “Scaling Laws and Fractality in Continuum Mechanics”.
The book includes the survey lessons by Gorenflo-Mainardi [62] and Mainardi [63].

PAPERS

The impact of papers and books can be derived in GOOGLE-SCHOLAR where one gets the citations: http://scholar.google.com/scholar?hl=en&lr=&q=f+mainardi

One can recognize that several papers have more than 100 citations.

A number of papers are freely available as E-PRINTS being posted at http://arxiv.org/find/all/1/all:+AND+Francesco+Mainardi/0/1/0/all/0/1

N.B. Since 1 November 2013 Francesco Mainardi is retired Professor from the University of Bologna. For a national law of Italian Rectors, retired professors cannot insert their publications in the data base of their Universities but only in the data base of MIUR (Italian Ministry of University and Research) and, unless they get teaching contracts, they are deleted from the web site of their Universities. For Prof. Mainardi the following web site was still accessible up to January 2019 https://www.unibo.it/sitoweb/francesco.mainardi when he stopped to be a contract professor of Mathematical Physics for the Master degree in Physics.
