

Science Code Listing for Proposal Development / Proposal Tracking

The Science Code Tab/Section is used to assign keywords to sponsored projects. Bio-Med and other Science Departments have defined various keywords that can be selected on proposals. In addition, you can use the Science Code to associate the proposal with a Brown Center or Institute. *You may select more than one Science Code.*

- To generate a list of all the available values in Coeus – enter an “*” in the Code field.
- To sort the list of values in alpha order click on the Description Bar.
- Brown Centers and Institutes are highlighted in green below.

Code	Description
1	Aging
37	Astrophysics and Cosmology Experiment / Theory
26	Behavioral & Social Science
24	Biochemical Genetics
40	Biogeochemistry
38	Biological Physics Experiment / Theory
23	Biomedical Engineering
22	Biostatistics
2	Cancer
3	Cardiovascular
27	CCMB (Center for Computational Molecular Biology)
4	Cell Signaling
45	Center for Biomedical Engineering
46	Center for Computational Graphics and Scientific Visualization, Science and Technology
30	CFM (Center for Fluid Mechanics)
55	Chemicals, Biochemical, Environmental Engineering
43	Climate Adaption
51	Computer Engineering
33	Condensed Matter – Experiment
34	Condensed Matter – Theory
42	Conservation Science
5	Ecology
50	Electrical Sciences
35	Elementary Particle Physics – Experiment
36	Elementary Particle Physics – Theory
61	Engineering Other
60	Engineering Prime
6	Environmental Sciences
7	Epidemiology
52	Fluids and Thermal Sciences
8	Genomic Biology
25	Global & International Health
9	Health Services Research
10	Hepatic
14	Immunology
11	Infectious Disease

44	Institute for Brain Science
48	Institute for Computational and Experimental Research in Mathematics (ICERM)
49	Institute for Molecular and Nanoscale Innovation
58	Institute at Brown for Environment & Society (IBES)
41	Land Change Science
28	LCDS / PDE (Dynamical Systems and Partial Differential Equations)
53	Materials Science
54	Mechanics of Solids and Structures
12	Musculoskeletal
13	Neuroscience
15	Obesity
59	Population Studies & Training Center
16	Proteomics & Structural Biology
18	Psychiatry & Human Behavior
29	PTG (Pattern Theory Group)
17	Pulmonary
19	Reproductive Biology
31	Scientific Computing
32	Stochastic Systems
20	Substance Abuse
21	Women's Health
