The constant churn of today’s media landscape drives new and growing expectations from our audience.

Your audience will not adapt to your favorite communication channels. You need to adapt to theirs.

Where is your target audience spending their attention in 2018?
Set goals, KPIs and define your target audience(s).

Explore storytelling on new channels, tailor content and find your media mix.

Are you achieving your goals? Make data actionable.

Conduct market research. Within Brown’s brand framework, how can you differentiate your unit from peers and other Brown departments?

Leverage new technology, tactics and functionality to drive clicks by hyper-targeting your content.
**Define Goals**

- Increase website visitors or giving
- Drive engagement (any digital action taken)
- Amplify earned, owned and paid content
- Raise attendance at events
- Drive applicants to specific programs
- Build general awareness
- Surface thought-leaders
- Set KPI’s = Key Performance Indicators

**Define Audience**

- Local, national, international (geolocation)
- Prospective students
- Young alumni (GOLD)
- 10 – 20 years out
- 20+ years out
- External media
- Parents
- Current students, staff, faculty (campus)
Know your audience

★ Millennials embraced technology; Gen Z are digital natives.

★ Millennials watched Hulu and Netflix; Gen Z wants to co-create, **livestream**, and help make up the activity as they participate.

★ Millennials initiated text messages as a norm; Gen Z prefers communicating through video, images, icons and symbols.
Know your platforms

★ No more “one-size-fits-all” for content distribution.

★ Each network has its own unique culture, voice and context; driving varied expectations from the end-user.

★ Research competitive differentiators between platforms after researching your target demographics.

★ Content should be tailored for each platform; new platforms are driving new content formats.
Audit your peers

★ Which channels are they leaning in on?
★ Are you using platforms that they’re not? Why?
★ Great way to snag micro-campaign ideas!
★ Audit broader communications channels and media outside of higher ed.
Research across campus

- How can you **add value** in a crowded, competitive media landscape?
- Is there a platform that is not yet being used widely at Brown? If so, does that present an opportunity to fill the gap?
- Within Brown’s brand framework, how can you differentiate your unit from other Brown departments?
- How are other departments using social media effectively, or not?

### Audit existing platforms

- **Research existing platforms for opportunities to merge, streamline and collaborate** with similar departments or units.
- Umbrella accounts and departmental channels may already exist or have pertinent data.
- Always look for opportunities to leverage an existing platform before creating a new one.

Research attention

- Research your audience's use of social media. **Understand why** a specific platform is popular.
- You are competing against multi-billion dollar media conglomerates for your 3 seconds of attention. Make it count!
- Where is your target audience spending their attention every day?
- Check global demographics data from Pew, Statista, eMarketer, Mashable and TechCrunch.
Research global trends

★ It’s called a Newsfeed for a reason.

★ Social media users don’t know what they’re looking for. It’s your job to deliver what they want, before they know they want it.

★ Of the sites tracked since 2013, three of eight show an increase in the portion of users who get news there: Facebook, Instagram and LinkedIn.
Research top channels

★ Keep an eye on percentage change in Monthly Active Users (MAUs).

★ Early adoption of a hot platform allows you to capture followers and engagement easily.

★ Platforms like Twitter (although still crucial) take up a disproportionate share of your time and resources when stacked up against other channels.
Goals & Audience    Research & Audit    Content Strategy    Digital Engagement    Measure

Facebook Dead At 12, A Victim Of 2016

Is Facebook dead?

Facebook Isn’t the Social Network Anymore

WHY FACEBOOK IS NOT COOL ANYMORE AND BORING

“Facebook Is Dead To Us”: What Teens Think About 11 Of The Biggest Social Networks
Back by popular demand...

- Facebook has nearly 2 billion monthly active users.
- ~80% of online adults use Facebook.
- 70% log in daily for 30 minutes per day via mobile.
- 66% use it as a news source.
Sometimes when you spend months crafting and launching a campaign strategy, you find the landscape has already shifted.

Staying nimble and being able to pivot in a tumultuous media environment is increasingly important.

**Instagram Stories** copied Snapchat (almost verbatim) and continues to see record-breaking growth.
Tailor your content

★ Add value by creating a range of content types.
★ Find your unique media mix. Choose the right media to connect with your audience at the right touch-points.
★ Deliver relevant messaging to segmented audiences in distinct ways.
★ **Reverse-engineer** the end-user experience.

**Goals & Audience**
**Research & Audit**
**Content Strategy**
**Digital Engagement**
**Measure**

---

**Content**
news, feature, information, Q&A, interview, student profile, event, campus photo, research, video

**Media**

**Audience**
Prospective, Current, Alumni
Choose the right media

Prospective
- Snapchat Story
- Instagram Story
- Spotify Playlist
- YouTube Feature

Current Student
- Instagram Live
- Snapchat Takeover
- Facebook Events

Young Alumni
- LinkedIn Group
- Twitter Follow
- Snapchat Geofilter
- Facebook Live

Parent
- SoundCloud
- Facebook Photos
- WeChat & Weibo

Older Alumni
- Facebook Q&A
- LinkedIn Group
- Instagram Photo
- Pinterest
Cross-platform content

★ **Remix your content.** Same article; four very different ways of telling the story.

★ Maximizing media formats leverages Facebook’s algorithm and places a premium on user experience.

★ How can you differentiate your content from 100+ other Brown communicators telling the same story?

For Dr. Khaled Almilaji, the winter months of 2017 should have meant a quick trip to Turkey to check in on the humanitarian organization he founded, a return to the U.S. and to classes at Brown’s School of Public Health and, most importantly, spending Christmas with his wife and his pregnant with the couple’s first child.

Instead, Almilaji returns to the home of a colleague in Gaziantep, Turkey, a town along the Syrian border where he has directed medical work since finding his war-torn hometown of Aleppo, Syria. To keep up with the coursework he’s taking in the second semester of his master’s studies at Brown — biostatistics, qualitative
Private & Personal

★ In the age of Google and Facebook, using your real name on a public social media account intrinsically connects you with your place of employment.

★ One example of a Private & Personal account is to create a Twitter profile without your real name, photo or any connection to your place of employment.
Your Public & Professional account bio should include your real name and place of employment.

As the end-user explores your account, they should know the institution you represent, the type of content they should expect and how to further network with you.
Public & Institutional

★ Institutional and departmental accounts should seamlessly reflect and represent the institutional identity, brand and voice.

★ This Public & Institutional account should never interact with your Private & Personal account.

★ Create these accounts using your departmental email address.
User-generated content (UGC)

- Instagram brought along an enormous revolution in surfacing student life via user-generated photos.

- “Scene by you at Brown” became very popular by executing consistent micro-campaigns, cross-posting on multiple channels and using geolocation searches to find additional photos.
Storify is a great free service allowing you to find, assemble and embed user-generated social media content into other websites.

Tint is a paid service that BAA, ADV and OUC is currently running a pilot program with. This allows much of the same functionality as Storify, but with zero branding, more CSS customization and a better mobile app.

Aggregate, curate and surface UGC
Ask for user permission

★ If and when you download and re-upload content, you always need permission from the user.

★ Always credit the user when uploading to an official account.

★ Permission to incorporate a produced work (consent to use a photo) is distinct from image-use permission (consent from the person in the photo) and is additionally subject to Brown's policies for Copyright and Fair Use.
Content Strategy* recap

Planning, crafting and discovering the right media mix to leverage your unique messaging; storytelling to the right audience.
Leverage new digital functionality

★ Digital engagement often defined as *any action taken on a piece of online content*.

★ Experiment with new platforms to see what resonates with your audience.

★ Micro-target and narrow your audience with advanced digital tools.

★ Leapfrog old technologies by using new social media platforms.
Hyper-target your audience

Organic (Owned Media)

Facebook
- By Interest: Facebook can help you reach specific audiences by looking at their interests, activities, the Pages they have liked and closely related topics.
- By Age
- By Location

LinkedIn
- By Geography, Job Function, Degree Earned, Field of Study, Industry and Seniority Level.

Twitter
- By choosing which account to post from: @BrownAlumniAssoc, @brownclubny, etc.

Advertising / Boosting (Paid Media)

Facebook
- By Email Address (Bulk upload a .CSV file)
- By Graduation Year
- By School and Profession

LinkedIn
- By Groups, Age and School.

Twitter
- By Email Address (Bulk upload a .CSV file)
- By Followers, Interests and Keywords.
Leverage Facebook’s paid advertising service to tailor content to target audiences.

Many advertisers target an audience that is too broad. Narrow your audience by interest, school, age, location and profession.

Stand out by trying different ad formats such as carousel or video.

2016 = Quantity of Followers

2017 = Quality of Content

2018 = RELEVANCY
The demand for “Live TV” is not slowing; it is evolving into mobile.

Snapchat flooded the market early by feeding a growing demand for mobile Live TV.

Uncut, unpolished, authentic, unedited.

“Imperfect sharing” = Reality TV

A truly immersive experience.
Snapchat Stories & Takeovers

★ Snapchat’s Campus Stories feature revolutionized campus life content through authentic, **first-person video**.

★ How can we possibly scale (and capture such a diverse campus experience) when you can’t **upload** video?!

★ Student and Departmental Snapchat “Takeovers” from Women’s Basketball, Figure Skating, Brain Fair, Women’s Skiing, Brown Band, Sailing, Men’s Baseball & Theatre.
For $130 a pair of Snapchat Spectacles can provide a unique perspective.

Businesses and individuals can purchase On-Demand Geofilters.

QR codes never took off; Snapcodes are now common practice. Helped grow Brown’s Snapchat audience by ~7,000 people.
Facebook is going all in with video. This is a massive revolution for producing and consuming digital content.

Spotty Wi-Fi connection and issues on Facebook’s end sometimes makes Facebook Live via mobile unreliable.

Worth the risks with a combined reach of 150,000+ on just two Facebook Live mobile broadcasts.
GIFs!

★ Instead of a standard “still image screenshot,” experiment with GIFs to supplement news feature items and video content.

★ Great engagement on social media; easy and effective for Twitter.

★ A damask rose from Syria, bloomed just in time for the final week of artist Fatma Bucak’s exhibition “And men turned their faces from there.”

★ makeagif.com
Digital Engagement*recap

Using new technology, tactics and functionality to drive clicks on your content. Delivering tailored content in new and exciting ways.
Owned, earned & paid media

★ **Owned** media is generated by the brand in channels it controls.

★ **Earned** media is publicity not directly generated by the brand, but rather by other entities such as customers or journalists.

★ **Paid** media refers to external marketing efforts that involve a paid placement.

Assign different weights to different channels. Are 1 million Twitter impressions equal to 1,000 unique pageviews on brown.edu?

Make data **actionable**

- Revisit your goals and KPIs.
- Refine content strategy based on demographics data.
- Allocate your time and resources accordingly.
- Keep in mind how to weigh certain data.
